HE TOOK CATTLE.

Actress Madeline Bouton's Brother Charged With "Rustling."

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 18.—[Exclusive Dispatch.] Victor Bouton, brother of Madeline Bouton, the actress, was arrested shortly before 5 o'clock to-night by Detectives Reynolds, Crockett and Dinan and placed on the detention book awaiting the pleasure of Sheriff Taylor of Humboldt county, Nevada, who has a warrant for his arrest as a cattle-thief.

According to Taylor, Bouton has been operating around Winnemucca, Nev., and in Paradise Valley for some

time, taking steers from herds of various ranchers and placing his own brand on them. One hundred head have been recovered, but it is claimed the number stolen is much larger.

Consolidation of Banks.

NEW YORK, Oct. 18.—Joseph C. Hendricks, president of the National Union Bank of this city, in an interview is quoted as saying that he had not heard of any consolidation of the National Bank of Commerce and the Union Bank. It has been reported that Hendricks would be elected president of the National Bank of Commerce, and that the two institutions would be merged into one.

[THE PHILIPPINES.]

BARGAIN SALE

OF ARMIES.

Pio Del Pilar Offering His for Cash.

For Half a Million Dollars He Will Surrender Ag.

Enemy Beaten at San Mateo by Macabebe Scouts.

Patrol at Guiguinto Attacked, but is Reinforced.

Spanish Prisoners Who Plotted to Turn Artillery Over to the Americans Killed by the Filipinos.

[ASSOCIATED PRESS DAY REPORT.]

MANILA, Oct. 18, 8:55 a. m.—Gen. Otis has received messages purporting to come from the insurgent general, Pio del Pilar, offering to sell out and deliver his army into the hands of the Americans. Although he is not satisfied that this offer is authentic, it is not intrinsically improbable. The policy of Gen. Otis is firmly set against buying any surrenders.

Pilar offers for the sum of \$50,000 to refrain from attacking Manila with his army; for the sum of \$250,000 he offers to surrender his army after a sham battle, both sides firing into the air, and for the sum of \$500,000 he says he will procure the overthrow of the insurrection and the capture of Aguinaldo, Paterno and the other leaders. In the course of the communication he refers to Aguinaldo in contemptuous terms, indicating that strained relations exist between them.

Reports are being received from the districts occupied by the enemy which state that Pio del Pilar has an audacious plan to break through the American lines into Manila and seize Gen. Otis and the archbishop. Possibly these rumors were started with an idea of helping him to make a deal with the Americans. It is needless to say that the Americans would welcome an attack of that sort. There has been much speculation of late regarding the whereabouts of Pio del Pilar. The recent attack at La Loma is credited to his men. It is believed that he is now in the vicinity of San Mateo Valley with a force of from 1800 to 3000 men.

Ten former Spanish soldiers who were captured by the Filipinos, and for a time acted as officers and members of a Filipino artillery regiment located in the vicinity of Santa Rosa, in the Laguna de Bay district, determined to surrender the artillery to the Americans. The plot was discovered by the Filipinos, who killed seven of the conspirators, the other three escaping to Manila.

It appears that when the surrender was agreed upon, the Spaniards delegated one of their number to proceed to Manila to propose to Gen. Otis to surrender after

prearranged mock battle, about twelve pieces, including Krupp and Nordenfled rapid-fire guns, well supplied with ammunition from the Lipa powder factory, in exchange for certain sums to be paid the Spaniards, who were to be pardoned for carrying arms against the Americans and to be transported to Spain.

The delegate left Santa Rosa, and accompanied by three Filipinos, entered the American lines at Calamba. The Filipinos did not proceed far, deciding to await his return at a given time. As the delegate was detained in Manila longer than they expected, they grew suspicious and returned to Santa Rosa. The plot was then revealed, and the remaining Spaniards were attacked.

The gunboat Napidan, coasting near Santa Rosa, perceived two men on the beach hurrying to land in a canoe and pushing out toward them. She took them on board and they reported that the Filipinos, on discovering the plot to surrender the artillery, had cut the throats of seven of their Spanish companions, and that they themselves had barely escaped with their lives. The three Spaniards are now hiding in Manila, fearing Filipino vengeance. Gen. Otis had declined their offer through the delegate, but he promises to send the three to Spain.

VALIANT MACABEBES.

[ASSOCIATED PRESS DAY REPORT.]

MANILA, Oct. 18, 4:39 p.m.—Batson's Macabebe scouts encountered the enemy at San Mateo, near Arayat, at dawn today, and attacked them on the front and flank, driving them out of the trenches and dispersing them completely.

Several Filipinos, including a captain and a lieutenant, were killed. A quantity of arms was captured. The Macabebes had one man killed.

ATTACK AT GUIGUINTO.

[ASSOCIATED PRESS DAY REPORT.]

MANILA, Oct. 18, 10:30 p.m.—A body of twenty-five Filipinos attacked a railroad patrol of eight men, members of the Seventeenth Regiment, at Guiguinto, north of Bulacan, wounding two. The Americans reinforced the patrol and drove the enemy off, capturing a quantity of ammunition.

LAWTON AND BELL.

Former With Strong Column at Calamba—Santa Rita Encounter.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Oct. 18.—Gen. Otis made the following report to the War Department, under date of October 18: "Lawton, with a carefully-selected strong column, reached Calamba, ten miles south of San Isidro, this morning. Thirty days' supplies and more at Calumpit to be forwarded Third and Fourth Cavalry with him under Young, Bell, and Telford. Infantry, scouting northeast Santa Rita, with part of regiment, struck insurgents, killing and wounding several, capturing thirteen prisoners and fifteen rifles."

LUZON CAMPAIGNING.

Climate Conditions are Bad at Present—Blockade of Ports.

[A. P. EARLY MORNING REPORT.]

NEW YORK, Oct. 18.—A special to the Herald from Washington says: "The authorities have very generally deprecated the action of Gen. Otis in directing the movement of Gen. Schwan to the south of Manila, and Gen. Lawton to the north, when it is very well understood that the climatic conditions are not such as to permit of satisfactory campaigning."

"It is apparent from Gen. Otis's official dispatches that he never had any serious intention of directing the occupation of territory south of Manila, though it was the understanding of the officials of such occupation would occur in the important towns captured in the north. The purpose of the movement under the command of Gen. Schwan, as explained by Gen. Otis, was to disintegrate the insurgent forces and destroy their stores."

The blockade of ports under control of insurgents was to be in accordance with the instructions given by the President. Reports received from Rear-Admiral Watson show that both rice and hemp have appreciated in value more than 300 per cent.

"Surg-Gen. Sternberg says that so far as he is informed, the hospital accommodations are sufficient, but the establishment of hospitals in the hands of Gen. Otis and the chief surgeon of the department. In any event, Gen. Schwan, as explained by Gen. Otis, was to disintegrate the insurgent forces and destroy their stores."

KILLED AND WOUNDED.

Gen. Otis Cables the War Department Recent Casualties.

[A. P. EARLY MORNING REPORT.]

WASHINGTON, Oct. 18.—Gen. Otis has reported to the War Department the following casualties:

THIRTY-SEVENTH INFANTRY.

Killed, near Mutinlupa, October 12—Co. A, Leslie Berry, Joseph T. Morissette, Joseph Maher.

FOURTH INFANTRY.

Wounded, at Imus, October 5—Co. E, Frank Stevens, foot, slight; October 6, Co. C, Corp. Ralph C. Haxton, hand and leg, severe; Co. A, Henry Faulkner, hand, slight; Co. F, Frank B. Konklin, leg and knee, severe.

NINTH INFANTRY.

Wounded, at Angeles, October 11—Co. C, Corp. John W. Lattimer, foot, slight; Co. E, Christopher E. Whiteside, chest, slight; Axel E. Skogberg, leg, slight; Co. L, Frank Short, forearm, slight; John F. McGraw, arm, slight; October 13, Leslie Chellann, arm, severe.

SEVENTEENTH INFANTRY.

Wounded, October 11—Co. D, Corp. William C. Rossell, arm, slight.

THIRTY-SEVENTH INFANTRY.

Wounded, near Mutinlupa, October 12—Co. B, Andrew S. Garrett, thigh, moderate.

HOSPITAL CORPS.

Wounded—Joseph S. Shahiro, thigh, moderate.

SIXTH INFANTRY.

Wounded, at La Buan, Island of Negros, October 11—Co. A, Sergt.

George Stevens, arms, severe; Elmer E. Affeldt, thigh, slight; Co. B, Harry Campbell, thigh, moderate.

ARMY GENERALSHIPS.

Speculation on Who Gen. Shafter's Successor Will Be.

[A. P. EARLY MORNING REPORT.]

NEW YORK, Oct. 18.—A special to the Herald from Washington says: "The belief at the War Department is that the series of promotions and retirements following Gen. Shafter's removal from the active list will result in Gen. Lawton getting the brigadier-generalship, and that the next vacancy in that rank in January, 1900, following the retirement of Gen. Anderson, will be filled by Gen. MacArthur."

"All of the present general officers of the regular army will retire before Gen. Lawton, with the exception of Brig-Gen. Wade, who retires April 14, 1901."

"Gen. Lawton will retire one month earlier. Should anything happen to Gen. Wade, Gen. Lawton by his appointment now would be the immediate successor of Gen. Miles upon his retirement in 1903, and would have command of the army for nearly four years. Whether appointed now or in January, Gen. MacArthur, if he lives, will be sure to be the commanding general for at least two years."

"There is a strong movement on foot to have Gen. Wood, the commanding officer at Santiago, appointed to the present vacancy, but at the War Department there is no expectation that he will come in ahead of Gen. Lawton and MacArthur."

SENATOR ALMOST DUE.

Transport Has Probably Passed Through Terrible Typhoon.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Oct. 18.—The United States transport Senator, with the Iowa volunteers on board, is expected to arrive from Manila next week. The news of the terrible experiences of the steamship Empress of India, while en route from the Orient to Victoria, B. C., when she encountered a terrific typhoon, caused no alarm here for the safety of the Senator, which is supposed to have also escaped the storm. The Senator is a good vessel, and able to withstand the rigors of a storm of unusual severity.

WORRY IN IOWA.

[ASSOCIATED PRESS NIGHT REPORT.]

DES MOINES, Oct. 18.—[The Associated Press dispatches indicating that the transport Senator, now on the Pacific with the Fifty-first Iowa Regiment may have suffered on account of heavy weather, is causing great concern.]

Gov. Shaw announced the cancellation of his speaking dates, and will leave at once for San Francisco to meet the regiment and assure proper care for the troops, in case they have suffered severely.

TERRIFIC STORMS.

[BY DIRECT WIRE TO THE TIMES.]

VICTORIA, Oct. 18.—[Exclusive Dispatch.] The transport Senator underwent a very rigid inspection before it was accepted, but nevertheless some of the officers and passengers of the Empress of India have grave doubts as to the Senator's ability to weather the storm. Others, again, say she will certainly come through intact.

Some time after the storm, two waterlogged boats and some rigging, evidently from a sailing vessel, were seen by the officers of the Empress. Some idea of the force of the storm can be gained when it is stated that the lifeboats were in water of steel, and were so lashed to the davits that it seemed impossible for any power to move them.

Huge waves washed over the upper decks, carrying everything before them, and found their way into every opening. Confusion reigned supreme.

Wildman's letters deal largely with

(CONTINUED ON FIFTH PAGE)

In the big smoking-room on the upper deck when a wave stronger than its predecessors tore the door from its hinges, broke a window and sent the occupants sprawling in all directions. The telephone between bridge and engine-room would not work for several hours, the electric plant setting out of order, and, to make matters worse, the lights went out.

In the engine-room the crew had to work while water poured on them from the skylights. The Chinese passengers were tied down, that being the only way which they could be kept under control. Before sailing again the Empress will have to have some of her railings replaced and many new windows put in.

TO REMOVE OTIS.

Mission of Editor Lettmour, Who Has Come from Manila.

[ASSOCIATED PRESS NIGHT REPORT.]

VANCOUVER (B. C.) Oct. 18.—Prof. D. C. Worcester and Col. Denby, Philippine commissioners, arrived here today on the steamer Empress of Japan and left this afternoon for Washington, where they will make their report to the President. Until the report is made public neither gentleman will make a statement of any kind for publication.

Among the passengers on the Empress was Editor Lettmour, proprietor of the Manila American. His mission to America is to urge the removal of Gen. Otis, in command of the United States forces in the Philippines, and the promotion of Gen. Lawton to command. Lettmour says that Lawton is frequently denied the fruits of victory by the hesitation of Gen. Otis.

WILDMAN LET LOOSE.

"RAW" LETTERS CHARGED UP TO THE AMERICAN CONSUL.

Tells Aguinaldo not to Mind About Feeding the Spanish Prisoners. Says the Filipino is Too Tender With the Enemy—Correspondence on Which the Rebels Count.

[ASSOCIATED PRESS NIGHT REPORT.]

MANILA, Oct. 18, 10:30 p.m.—[By Manila Cable.] The consul in Manila have received from Talaric, where it is believed Aguinaldo is, a book containing the correspondence between him and the American commanders and consuls, in which, as he contended, the Americans were responsible for the Philippines find the basis for their assertion that the American government recognized their sovereignty, and promised them independence.

The book is addressed to the members of the United States Congress, and contains a long argument by Señor Buencamino of the so-called cabinet of Aguinaldo, and alleged letters written by Wildman, United States Consul at Hongkong, to Aguinaldo in June and July of last year. It has made a sensation among the Spaniards here.

Replying to Aguinaldo's request that the Americans would arrange for the shipment of Spanish prisoners to Hongkong, relieving the Filipinos of the expense of maintaining them, Wildman wrote: "Never mind, Wildman. A meal every day, of course, and water would be a good diet. They have been living too high during the last few years. As the Spaniards want more bloodshed in the Philippines, I trust you will let them have a taste of real war. Do not be so tender with them. Handle them as they would treat you."

Wildman's letters deal largely with

[SOUTH AFRICA.]

FIERCE BLOWS

FOR THE BOERS.

Heavy Losses Sustained at Mafeking.

Mysterious White Flag Seen Over That Town.

Messenger Detained and Gets No Definite Answer.

Fighting at Acton Homes and Lester's Stations.

Zulus Apply to Gen. White to Be Allowed to Fight—Swazis are Breaking Out and Basutos are Restless.

[ASSOCIATED PRESS DAY REPORT.]

LONDON, Oct. 18.—[By Atlantic Cable.] A special dispatch dated at Pretoria at noon yesterday, says: "After a few shots were fired at Mafeking, the white flag was hoisted. A Boer party bearing a flag of truce was sent to inquire whether the town surrendered. No definite reply was received. The Boer messenger was detained for six hours, and then released."

Another special dispatch from Pretoria says: "The Boer Krupp batteries are now covering the town. Military engineers are observed laying a temporary railroad, which will probably be used in armored-train defense by the garrison."

FIGHTING NEAR LADYSMITH.

British Encounter Boers at Acton Homes and Lester's Station.

[ASSOCIATED PRESS DAY REPORT.]

LADYSMITH, Oct. 18, 5:25 p.m.—[By South African Cable.] The British forces came into contact with the enemy in the neighborhood of Acton Homes and Lester's Station, about sixteen miles from the town, yesterday. The fighting began about 10 o'clock.

THE "COLORED TROOPS."

[ASSOCIATED PRESS DAY REPORT.]

LADYSMITH, Oct. 17.—[Delayed in transmission.] The native tribe of Barotseng, under Chief Wessels, is said to be cooperating in the defense of Mafeking, undertaking outpost duty.

A native tribe in Zululand, whose cattle have been raided by the Boers, applied to Gen. Sir George Stewart White, the British commander in Natal, for permission to make armed resistance. Gen. White refused their request, as he is opposed to the use of colored auxiliaries in the coming struggle.

It is reported here that dysentery and desertion are prevalent in Gen. Cronje's commands.

BRITISH CAMP TAKEN.

Boers Report Hard Fighting and Losses at Ramathlabama.

[ASSOCIATED PRESS DAY REPORT.]

LORENZO MARQUEZ, Oct. 18.—[By South African Cable.] A representative from the Transvaal government is here, and is buying all the provisions possible. One hundred and thirty persons, just released from the Barbertown jail, have just been put over the Portuguese boundary.

The official journal of the Boers gives the following account of the British camp at Ramathlabama, north of Mafeking: "The camp at Ramathlabama has just been captured and sacked after hard fighting. Many burghers were killed and wounded. The British loss is not known."

BRITISHERS MUST GO.

House-to-house Search Announced from Johannesburg.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Oct. 18.—[By Atlantic Cable.] The Cape Town correspondent of the Daily Mail says:

"The authorities at Johannesburg have announced that they will make a house-to-house search Monday, and will compel every British subject to leave the town."

"The imperial authorities have imposed 150,000 sovereigns, which arrived there by steamer today for the Transvaal. The money will be kept here until the war is ended."

SHAMROCK GROWING.

RACING LENGTH INCREASED ON REMEASUREMENT.

Cap Challenger Will Now Concede to the Columbia an Allowance of Sixteen Seconds Over a Thirty-mile Course.

Three and a Half Tons of Lead Put Aboard the Foreign Yacht and She Now Sits More Trim Upon Her Stern.

Pugilist Convicted of Manslaughter. Two Jockeys Called Up at Morris Park—Chicago and Lintonia Races—Football Contest.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 18.—A half-hour before sunset today, the Shamrock lay inside Sandy Hook, gently tugging at her mooring buoy. An eighth of a mile away was the Columbia, idly rocking on the ripple within the Horse-shoe. On board the Shamrock there was activity. Her crew was completing the adjustment of shrouds and stays to secure the new topmast that had been set up at noon to replace the one carried yesterday. On board the Columbia there was no activity. All were at ease. Measurer John Hyslop announced at the New York Yacht Club that the new measurement of the Shamrock, made by him this morning, shows the yacht's present draft to be 88.96 feet, and her racing length, by club rule, 102.55 feet. He states that the Shamrock will now allow the Columbia sixteen seconds in a thirty-mile course. Tomorrow's race will be fifteen miles to windward, or leeward, and back, the start to be made at 11 o'clock as usual.

The ballast put aboard the Shamrock last night consists of pigs of lead weighing about twenty-five pounds each, made handy in chains and in between the frames of the yacht down as low as possible where they will do the most good. Three and a half tons of it was passed on board and stowed below. Most of this weight was put aft, judging from the appearance of the yacht today, seemed to trim more by the stern than before.

It was learned today that the cause of the accident to the topmast was not the parting of the shroud at the "nip," as was generally supposed. The mast itself broke first, not being able to stand the strain brought upon it by the wrenching swing of the great club topsail spars when the yacht plunged into the heavy seas. One of the shroud bolts, it is said, when the wreckage went down to leeward.

THE REMEASURING.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, Oct. 18.—The remeasuring of the Shamrock took place at Erie Basin today. The yacht was laid between one of the army transports and the steamship Remus. There were on board, besides the captain, William Butler Duncan, Jr., representing the New York Yacht Club, and Mr. Iselin, J. Connell, representing the Royal Thames Yacht Club, the owner of the Shamrock, Capt. Nat Herreshoff, and John Hyslop, official measurer of the New York Yacht Club.

Three thousand three hundred and eighty pounds of lead ballast were put on board the yacht during the night. This was said to have changed her water-line a few inches. She now appears to set by the stern. After the water line had been changed in the usual way, the measurement was taken. The new topmast was hoisted, and to obtain the measurements of the masthead in the masthead in a boatwain's chair, going up aloft in another himself to the heel of the topmast, so that an accurate measurement was thus taken.

Immediately after the measurement the yacht was cast off, and Connell said that she was going directly to Sandy Hook Bay, where the topmast would be rigged and the mast be ready for tomorrow's race.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 18.—A number of Sir Thomas Lipton's guests sailed today for Europe on the White Star steamship Oceanic. Lord and Lady Charles Beresford were the last to go aboard the Oceanic.

HORSES COMING HERE.

Difficult Matter to Get Them, for Oakland Is Easy.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Oct. 18.—[Exclusive Dispatch.] On account of the easy game at Oakland, it has been difficult to get horses here for the racing meeting. Although free transportation was offered, but twenty-two running horses were shipped south last night. The best of the bunch were Fortis and Alaria, who are regarded as outstanding all the entries in the Derby. The list of horses shipped last night is as follows: Fortis, Alaria, Ned Dennis, Stormo, Summer, Jerid, Corbett, Sonnie, Fairfax, Fly Freedom, Leoniden, Semper Leon, Occorona, Rosemore, Burnham, Tom Smith, Yule, Tagalop, Bogus Bill and Rapido.

JOCKEYS CALLED UP.

Queer Maneuvers of Odom and Slack at Morris Park.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, Oct. 18.—A good-sized crowd watched the poorest day's racing of the season at Morris Park today. The track was heavy and with-drawals were so numerous that only two started in the fifth and three in the sixth race. The last race developed into a farce. The conditions called for a mile and three-quarters over the Withers course. On the start Spurs, Odom and Julius Caesar, Slack up, went out as pulled up, running, but instead of turning across the Withers bend, went on over the hill course.

Wilson, on Maid of Harlem, had his horse about him, took the right course and practically had a walkover. Odom saw his mistake when rounding the upper turn, and he pulled up and went back, taking his horse over the Withers course for second money. Slack kept his horse on the right course. Both boys were called up in the stand for an explanation, but nothing was given out by the stewards.

Burgess, who rode Hardy C. in the first race, was badly hurt, the doctors diagnosing his case as concussion of the brain. Steeple-chase, about two miles: The Bachelor won Philadelphia second, Mr. Shoffler third, time 4:00. Five and a half furlongs: Caouthou won, Taboret second, Buffon third, time 1:05. The Castleton, five furlongs: Oread

won, Smoke second, Jamaica third; time 0:59. One mile: Waring won, Radford second, Lady Thomas third; time 1:42. One mile: Trillo won, Wait Not second; time 1:43. No others. Mile and three-quarters: Maid of Harlem won, Spurs second; time 3:25.

STEAMED HIS ARM.

Jeffries Takes the Injured Member to Be Fixed.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 18.—James J. Jeffries came to New York from Asbury Park again today, and his lame arm was steamed. This treatment will have to be kept up for a week, and the champion will not be able to do active training until it is finished. The big fellow reached New York at 7:30 o'clock. He went direct to the doctor's office. The steaming process occupied thirty minutes. The effects are very pleasing, and Jeffries declared the injured member felt much better after the operation.

Jeffries will not rest absolutely. The rock track that he will be kept up, and a certain amount of exercise will be given to the injured arm.

ON BRITISH SOIL.

Martin and Reiff Ride Winners at the Galwick Meeting.

(ASSOCIATED PRESS NIGHT REPORT.) LONDON, Oct. 18.—[By Atlantic Cable.] At the second day of the Galwick riding, Stage Villain, ridden by "Skeets" Martin won the Galwick Midland handicap. Sloan rode Jiffy II, but was unplaced. Thirteen horses ran. The betting was 10 to 1 against Stage Villain, and 3 to 1 against Jiffy II. The Mile Plate was captured by Dewey Rose, ridden by L. Reiff. Sloan finished second with Egmont. Thirteen horses ran. The betting was: Dewey Rose, 5 to 1; Egmont, 9 to 2. The Red Hill wether handicap was won by Musetta, Georgiana second, with L. Reiff up, and Nipper third. Six horses ran. The odds against Georgiana was 12 to 1. Escorial, ridden by L. Reiff, won the Crawler selling handicap. Eleven horses ran. The betting was 7 to 1 against Escorial.

FATAL GLOVE CONTEST.

Pugilist Convicted of Manslaughter in W. W. Yrigoien.

(ASSOCIATED PRESS DAY REPORT.) PARKERSBURG (W. Va.), Oct. 18.—George Wanko, pugilist of Washington, Pa., has been found guilty of manslaughter, in causing the death of Felix Carr of St. Albans, W. Va., in a glove contest, near here, recently. The penalty is from one to five years in the penitentiary.

EASTERN BASEBALL.

Brooklyn Defeats the Phillies in an Exhibition Game.

(ASSOCIATED PRESS NIGHT REPORT.) PHILADELPHIA, Oct. 18.—Brooklyn took the exhibition game today by a lopsided score. Score: Brooklyn, 5; base hits, 14; errors, 3. Philadelphia, 4; base hits, 9; errors, 1. Batteries: Dunn, McJames and McGuire; Donohue and McFarland. Umpire—Latham.

WOMAN'S LONG RIDE.

Mrs. Jane Lindsay Makes a New Bicycle Record.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, Oct. 18.—Mrs. Jane Lindsay finished her 300-mile bicycle ride at 4:18 o'clock today, having completed the task in 98h. 45m., the best time for the distance that a woman has ever done. Mrs. Lindsay stopped six hours within the period of her ride.

On Oakland Track.

SAN FRANCISCO, Oct. 18.—The weather at Oakland was fine and the track good.

Futurity course, selling: Lady Heloise, 105 (Bozeman), 5 to 2, won; Rosalinda, 105 (Berkeley), 4 to 1, second; Shannonette, 109 (Henry), 12 to 1, third; time 1:12.4. Spurt Blanco and Starling, Sidelong, Sierra Blanco and Arthur also ran.

Six furlongs: Etta H., 105 (E. Jones), 1 to 3, won; Merry Boy, 104 (Henry), 50 to 1, second; Montallado, 104 (John), 50 to 1, third; time 1:15.4. Wilmet and Shellac also ran.

Seven furlongs, free handicap: Balthos, 105 (E. Jones), 11 to 5, won; Silas, 105 (Berkeley), 12 to 1, second; My Gypsy, 102 (Songer), 12 to 1, third; time 1:29.4. Rixford also ran.

One mile, selling: Rainier, 89 (Coburn), 5 to 2, won; Don Luis, 105 (E. Jones), 6 to 1, second; Donator, 101 (Morse), 5 to 1, third; time 1:41.4. Judge Wofford, Charles Lebel, Sylvan Lass, Rosamund, Castake and Twinkle Twinkle also ran.

Futurity course, selling: Lothian, 97 (Ranch), 30 to 1, won; February, 102 (Coburn), 5 to 1, second; Anchored, 105 (E. Jones), 5 to 1, third; time 1:11. Negligence, Bessie Lee, Libertine, Rio Chico and Dona Marie also ran.

Long Shot Astor.

CHICAGO, Oct. 18.—Astor, the long-shot in the last race today at Harlem, won in a big gallop. The price against him was 40 to 1. Astor, the judges suspended Lockhart Bros. his owner, and everyone connected with the stable. In the fourth race, "Chance" beat Tulla, Fonso, the 1-to-2 favorite.

Four and a half furlongs: Tildes won, Mayline second, Emma M. V. third; time 0:56. Mile and an eighth: Admetus won, Yuba Dam second, Jennie F. third; time 1:35. Mile and a half furlongs: Violet Parsons won, Little Alarm second, Don't Skip Me third; time 1:59.4. Mile and three-quarters: Tulla Fonso second, Volante third; time 1:43. Six furlongs: Nettle Regent won, The Monk second, Browne Anderson third; time 1:31. Mile and twenty yards: Astor won, Free Lady second, Great Bend third; time 1:45.4.

Two Favorites Won.

CINCINNATI, Oct. 18.—Manlius and John Yerkes were the only favorites out won at Lintonia. The track was bad.

Seven furlongs: Rubel won, Yonose second, Milane third; time 1:35.4. Five and a half furlongs: John Yerkes won, Woodrice second, Cavalier third; time 1:31.4. One mile: The Geeser won, Nancy Tilly second, Lord Neville third; time 1:48. One mile: Manlius won, Loyalty second, Musket third; time 1:47.4. Six furlongs: Reseda won, Troubadour second, Laura G. G. third; time 1:19.4.

Pennsylvania Beats Wesleyan.

PHILADELPHIA, Oct. 18.—The University of Pennsylvania football team won a hard-fought game today, this time by Wesleyan College. Pennsylvania, however, won the game by a score of 17 to 6.

Two Covelos Races.

COVELO, Oct. 18.—The last race, half a mile and repeat, was the feature of the Driving Park races today. A Maryland horse, Redwood, beat a field of crack sprinters in the half-mile dash. The track was fast.

\$600: First heat, Roadwarmer won. Dennis second, Redwood third. Second heat, Redwood won, Roadwarmer second, Dennis third. Last heat, Redwood won, Roadwarmer second; time 0:50.4.

Pennsylvania-Wesleyan Football.

PHILADELPHIA, Oct. 18.—In today's football game between Pennsylvania and Wesleyan, both teams made touchdowns and goal. The final score was: Pennsylvania, 17; Wesleyan, 6.

Quakers Lose to Princeton.

PRINCETON (N. J.), Oct. 18.—The Princeton football team today defeated Pennsylvania State College, 12 to 0.

Harvard Whitewashes Bates.

CAMBRIDGE (Mass.), Oct. 18.—The Harvard University football eleven beat Bates, 10 to 0, this afternoon.

Football at Ann Arbor.

ANN ARBOR (Mich.), Oct. 18.—The University of Michigan defeated Notre Dame this afternoon by 12 to 0.

WHY SHE'S POPULAR.

NEW JERSEY THE POSSESSOR OF A SURPLUS.

Hence Corporations Do Not Fear They Will Be Drawn or Therefore to Make Up Deficits—Statutes and Tax Exchangeable as the Laws of the Medes and Persians.

(ASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, Oct. 18.—There were six witnesses before the Industrial Commission today, the first being James B. Dill, a New York attorney, who was present as an expert on the corporation laws of New Jersey. Dill said that if the corporation laws of the State were enforced, tramp corporations would find it impossible to exist there.

The laws, in his opinion, were not only just and fair in their requirements, both to the corporations and the public, but they provided heavy penalties for their violation. But while all this was true, Dill said he feared that the laws had been more honored in the breach than in the observance. He also thought many of the corporations were organized at too high a figure.

Dill gave several reasons for New Jersey's popularity with the corporations as an organized State. The first of these was found in the fact that the State has a financial surplus, rendering it improbable that the corporations will be drawn upon in case of a squeeze to make up a deficit.

Another reason for this popularity was because the corporation laws have practically remained unchanged for the past thirty years, and a third, the fact that the taxes in New Jersey are fixed and immovable. He thought the time would come when corporations would be controlled by the State.

The other five witnesses dealt with the practical operation of the New Jersey laws. Four of these witnesses were representatives of the corporation trust companies of the State, who make a business of representing the State for transfer purposes the corporations organized there.

All of these witnesses agreed to supply lists of the companies represented by them, the number aggregating about one hundred and fifty, with an aggregate capital of about \$1,800,000,000.

The last witness of the day was Dennis B. Ryan, an attorney of Jersey City, who testified that he was in the habit of allowing his name to be used as New Jersey agent for corporations of the State, often terminating the connection after a day's service. He said that he did not keep records or lists of his stockholders in such cases, and he charged such a fee as he would if employed as an attorney, giving no further heed to the companies. He had within the past year or two represented about seventy-five companies.

MEXICO'S STREET CARS.

Lively Transportation War to Be Waged in the Capital.

(A. P. EARLY MORNING REPORT.) CITY OF MEXICO, Oct. 18.—A new concession for street-railway lines in the suburbs and also entering the city has been transferred by the concessionaires to a London syndicate, and it is reported this new company will make a strong competitor for the existing companies.

It is evident that the new year will see a lively urban transportation war for the old company is in the hands of a group of Southern American mill-aires resident in London, now engaged in buying up tramways in the various Mexican and European cities. It is rumored here that the Whitney-Widener syndicate, which also obtained an electric-coach concession, will take an active part in the coming contest for supremacy in the city passenger traffic.

The Americans have been very busy in their movements here and their future moves are awaited with curiosity.

MISSIONARY WORK.

Report on What Has Been Accomplished by American Association.

(A. P. EARLY MORNING REPORT.) BINGHAMPTON (N. Y.), Oct. 18.—The report of the treasurer, made to the fifty-third annual meeting of the American Missionary Association, shows receipts for the year of \$297,481, and expenditures of \$298,810; balance, \$571. Among the expenditures were: Work in the South, \$192,818; in Porto Rico and West Indies, \$3908; among Indians, \$37,572; Chinese, \$12,971; foreign missions, \$4435.

The report of the executive shows that the association has located a school at San Juan, near the Pacific Coast, and will locate another at Utuado.

Reports of missionary work were as follows: Southern church work—Number of churches, 211; number of ministers and missionaries, 140; number of church members, 11,295; added during the year, 147. Fifteen new churches were added and six dropped.

Indian missions, including Alaska—Number of churches, 19; membership, 1097; number of schools, 6; number of pupils, 368; missionaries and teachers, 83.

Chinese missions, California and Utah—Schools, including Japanese, 21; teachers, including 10 Chinese, 35; pupils, 1360.

The report says: "Reviewing all mission work from the beginning we find that nearly 20,000 Chinese have been reached in the mission service of Christian churches on the Pacific Coast, and about 2000 of them have become Christians."

At New York Hotels.

NEW YORK, Oct. 18.—[Exclusive Dispatch.] W. B. Appel is at the St. Denis.

STRAIGHT BUSINESS METHOD

PIANOS

Of Well-known and Reliable Make at Prices.

Which Are Not Met in this City.

Our sale of Pianos which ended last Saturday night was organized for one purpose only, and that was to sell the Pianos which we bought from the Fisher Music House.

It had no reference particularly to our own stock of Pianos. Although many Pianos from our own stock were sold at prices exceptionally favorable to the buyers, we want to impress this fact strongly on the public mind, that as far as this house is concerned, the Piano business did not close last Saturday night.

We are showing today the largest and finest stock of Pianos exhibited in the southwest. We are showing them at prices which are intended to compete with any instruments of like quality in the west.

During the first few days of the sale, now four weeks ago, we telegraphed large orders for fine instruments. These Pianos are now arriving daily. Every one of them is an instrument we can recommend and guarantee.

We think it would be worth your while to see them before you make a purchase. We think it would be worth your while to get our prices before you buy. We have no desire to juggle with words or figures. We simply ask you to be sure you are right before you buy, then go ahead.

Southern California Music Co., 216-218 West Third St., Bradbury Building.

CARTER'S ASSOCIATES.

Prospects of Indictments When Savannah Grand Jury Meets.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, Oct. 18.—[Exclusive Dispatch.] Indictments will be instituted against the associates of Capt. Carter when the Federal grand jury of Savannah, Ga., district convenes November 14. Simultaneously therewith the Federal court of the district of Savannah is to meet, which session, it is confidently expected by the Department of Justice that the grand jury will find indictments against a number of Carter's associates in the conspiracy to defraud the government. These indictments will be carried immediately to the United States District Court, which is the purpose of the Department of Justice to push the prosecution of these persons who may be indicted as expeditiously as possible.

There is a firm belief that these prosecutions will land in the penitentiary more than one man of high standing. From high official sources it is learned definitely that it is the expectation of the Department of Justice that indictments will be found against not only Gaynors and Greene, but against R. F. Westcott, father-in-law of Carter, and business partner of Senator Platt of New York. Westcott declined to go upon the stand in defense of his son-in-law, Carter, when the latter was being tried by court-martial.

In submitting to the President his opinion of the Carter case, Atty.-Gen. Griggs called attention to this fact, and declared by indirection and inference that it was his belief that Carter might have been cleared if his father-in-law had testified. The fact that the Department of Justice expects to prosecute Westcott offers the first sufficient explanation of Westcott's disinclination to appear as a witness in the Carter case. This is the first intimation, however, that Westcott had any criminal connection with the conspiracy.

It has been explained heretofore that the delay of the President in passing upon the findings of the Carter court-martial was caused by the desire of the administration to secure direct information touching upon the criminality of Carter's associates. The officials of the Department of Justice say there will be no let up in these prosecutions. It is the purpose of the administration to punish every man, regardless of social standing, who may be found to have had any connection with the Carter conspiracy.

SALVADOR'S AFFAIRS.

Peace and Plenty Prevail Throughout the Little Republic.

(A. P. EARLY MORNING REPORT.) NEW YORK, Oct. 18.—Advices from the Herald's correspondent in Salvador state that an English corporation is actively resuming work on the railway to the capital, via Nejapa, with a large force. It is calculated that the work will be completed in April next. The coffee crops promise to be abundant. Peace prevails throughout the

About March 1st we'll move to the most modern store building on the Pacific Coast—Nos. 331, 333 and 335 S. Broadway.

A sale of fine Shoes that marks a period in shoe selling.

BURGOO AND WIND.

LIKEWISE BARBECUED MEAT
AND BILLY BRYAN.

Such a Piling Louisville Democrats
Never Got Before in State
Campaign and How They
Did Satisfy.

Twenty Thousand of Them Fed at
Churchill Downs With Free Stew
and "Lasses"—Enthusiasm
on the March.

Crocker Has Promised New York to
the Nebraska Spell-binder.
Anti-Imperialists Confer-
ence Gets a Policy.

[ASSOCIATED PRESS NIGHT REPORT.]
LOUISVILLE (Ky.), Oct. 18.—Twenty
thousand people greeted William J.
Bryan and the candidates on the Demo-
cratic State ticket at Churchill Downs
this afternoon, the occasion being the
first demonstration by local Democrats
in the State campaign since its progress.
The crowd was filled with enthusiasm,
and satiated with barbecued meat and
burgoo. It fed upon oratory by the
State leaders, notably ex-Senator J. C.
S. Blackburn and William Goebel, and
the champion of its cause, in its na-
tional political, William J. Bryan.

The barbecue was the feature of the
third day of the programme of the party,
which has been stumping Kentucky in
the interest of the regular Democratic
nominees. They spent three hours at
the Jockey Club grounds, all full of
speech-making, and then resumed their
trip to Covington, Ky. After a meeting
there tonight the campaign in Ohio
will be begun.

A notable part of the day's pro-
gramme was played by the Cook
County Marching Club of Chicago,
which, 300 strong, came into town at
8 o'clock this morning, and to the music
of five brass bands, cut a swath
of untold democracy through the
heart of Louisville, that brought cheers
from the thousands who had gathered
to greet them. Capt. Farrell's doughty
band had breakfast at the Galt House,
marching into the race course, and for
the remainder of the day devoted them-
selves to adding noise and enthusiasm
to the Democratic celebration in progress
there.

Tomorrow they will take a trip
through the Kentucky Grass region, touch-
ing Frankfort, Lexington and Paris,
jumping into the midst of the Ohio
campaign Friday, at Cincinnati.

When Bryan and his party track
he was greeted with tremendous ap-
plause. The crowd completely filled
the large grand stand, even to the bot-
tom of the stands, and several thou-
sands of people were packed and jammed to-
gether on the ground. The speaking
stand was immediately in front of the
grand stand. It was a sea of humanity
that the speakers faced. The Chicago
Democrats were seated in the center of
the grand stand.

BRYAN IN OHIO.

[ASSOCIATED PRESS NIGHT REPORT.]
CINCINNATI, Oct. 18.—Bryan was
met at the meeting in Covington, Ky.,
by Hon. Allan O. Myers and others,
representing the Ohio Democratic Com-
mittee and a large number of Demo-
crats. Bryan spoke from a platform in
Park Place in Covington, and it is es-
timated that 20,000 people surrounded
him. When he quit speaking, there was
a rush for the platform to shake hands.
Many were crushed in the crowd.
Bryan was escorted to Ohio by great
crowds with blazing lights along the
way, but he declined public receptions
and repaired to his hotel. He left
at 11 o'clock p.m., for Dayton,
where the private car of Hon. John R.
McLean, the Democratic candidate for
Governor, was attached to his train.
McLean and other Democratic leaders
will accompany Bryan in Ohio the rest
of this week. Then Bryan will hasten
to Nebraska for the last two weeks of
the campaign.

SHELBYVILLE SPEECH.

[ASSOCIATED PRESS DAY REPORT.]
LOUISVILLE, Oct. 18.—Bryan
reached Shelbyville at noon and an
enormous crowd was on hand. He
saw in the last campaign corpo-
rations contributing large sums of
money to campaign funds, said
Bryan, "and it is instrumental in hav-
ing a law passed in our State making
it a penal offense to contribute money
to a campaign fund. Such a law ought
to prevail in every State."
"The charter of the corporation does
not authorize it to enter politics, yet
the Republican campaign fund is raised
by corporations and is contributing.
The corporations purchase the right of
immunity for Republican Attorneys-
General. If you ask me why the Re-
publican party does not contest the
answer is, 'Remember now thy
Creator.'"

Bryan believed the question of the
hour was one between aggregated
wealth on one hand and the common
people on the other. "A government
for syndicates and by syndicates,
against a government for the people
and by the people."

"I am interested in having silver
restored to its primary rights. I know
that influences are at work to thwart
this desire of the American people. I
know the Senate will be close; one
vote may decide the vital question, and
therefore the people outside of Ken-
tucky are interested in your sending a
Democrat to the Senate from this
State. We expect to increase our ma-
jority in Nebraska this year, and I
hope you will do the same." [A voice:
"We will double it!"]

The Bryan party reached this city
shortly after 10 o'clock. Bryan was
followed Senator Blackburn in his ad-
dress and was cordially received by the
crowd. He urged support of the nomi-
nees of the Louisville convention be-
cause of the principles enunciated by
that gathering, which he regarded as
of more importance than candidates.
The Louisville platform not only
affirms the Chicago declarations, but
defines the party's position on ques-
tions that have arisen since 1896. It
was not a question between Goebel and
any other Democrat, he said, but be-
tween Goebel and the election of a
Republican Governor and other State
officers. Bryan urged the importance
to the party of the election of a Demo-
cratic United States Senator and made
an earnest plea for Senator Black-
burn. He was frequently interrupted
by applause.

TALKS OF TRUSTS.

[ASSOCIATED PRESS DAY REPORT.]
HARRISBURG (Ky.), Oct. 18.—
The Bryan party held the first meet-
ing of the day here in the public
square, an audience of 4000 being pres-
ent. Enthusiasm was manifested
throughout.
Bryan said that the trust question
was like the flea question, all fleas
were alike. One did little harm, but
many became a pest. Trusts have be-
come a pest. He accused the Re-
publican Attorney-General, now candi-
date for Governor, with refusing to
enforce the trust laws of the State. He
accused him of being the law
against the man who stole a loaf of
bread and permitting the great thieves
to go unpunished.
A plea was made for Joe Blackburn's

election to the Senate on the ground
that he was needed in the Senate to
adjust the new questions growing out
of the Spanish war.

BRYAN AND McLEAN.

[ASSOCIATED PRESS NIGHT REPORT.]
KANSAS CITY (Mo.), Oct. 18.—Con-
gressman Champ Clark of Missouri,
who will go to Kentucky next week to
stump the State for Goebel, in an in-
terview here today predicted that Bryan
and McLean would head the Demo-
cratic ticket in 1900. If McLean wins
in the Ohio campaign this fall. Con-
tinuing to speak of Bryan, Congress-
man Clark said he would surely be
elected.

GOT A POLICY.

The "Aunties" also Get a Surprise
from a Woman.

[ASSOCIATED PRESS NIGHT REPORT.]
CHICAGO, Oct. 18.—Delegates to the
Anti-Imperialist Conference at Cen-
tral Music Hall, today resumed the
task of completing the organization of
a national anti-imperialist league. J.
Sterling Morton of Nebraska presided.
The speaker of the morning was Her-
bert Myrick of Springfield, Mass.

Myrick's part.
"It is a fundamental error to as-
sume that imperialism, militarism,
despotism, or any sacrifice of the
general welfare and self-government
are essential to the largest possible
development of America, internally or
externally. On the contrary, sacrifice
of our principles of government
means added burdens at home and
new sources of disaster to domestic
industry, with corresponding restric-
tions upon the benefit of a single
monopoly—the sugar refiners' trust?
Our domestic sugar-producing indus-
try cannot stand up against free
sugar from Cuba, Porto Rico and Ha-
waii and the Philippines.

"The vital issue, therefore, is: Shall
the entire industrial and political pol-
icy of the United States be revolu-
tionized for the benefit of a single
monopoly—the sugar refiners' trust?
Shall we foster the sugar industry
abroad to the destruction of sugar
production at home?"

"The West and South would be sad-
ly held back in their development by
any policy that might thus interfere
with the largest growth of wheat and
other phases of their agriculture. I firmly
believe that we should 'annex the arid
West' instead of the tropics. A few
millions for Federal storage reservoirs
and irrigation would yield vastly
greater returns to the United States
than oriental trade. The competition
of tropical agriculture will injure our
farmers at the East a thousand-fold
more than development of the arid
West or of the yet untouched re-
sources of the South and Southwest.
Our home trade is ten times as
valuable as our foreign commerce—
our life here infinitely more important
to us than conditions abroad. Let us
first cherish the former, without neg-
lect of the latter."

Following Myrick's speech, a gen-
eral discussion of the Philippine ques-
tion occupied the time until noon. A
public mass-meeting was then held.
Congressman J. J. Lents and Rev.
Herbert S. Bigelow of Cincinnati de-
livered speeches. During Rev. Bige-
low's speech a sensation was caused
by a stylishly-dressed woman, who
arose from the audience and, extend-
ing her gloved hand toward the Ameri-
can flag which hung suspended over the
speaker, exclaimed: "Take down the
flag. Don't disgrace it any longer."

She was hurried from the hall by a
friend, and as she left the building she
refused to give her name, but stated
she was the sister of one soldier, and
another and wife of another—all of
them fighting in the Philippines.

A declaration of principles was
unanimously adopted. It denounced
the policy of imperialism as hostile to
liberty, as unconstitutional and as
tending to the ruin of the Republic.
The policy of the present national adminis-
tration is condemned, and the immediate
cessation of the Philippine war de-
manded.

Continuing, it says: "We propose to
contribute to the defeat of any persons
or party that stands for the forcible
subjugation of a people. We shall op-
pose for reelection all who, in the
White House or in Congress, betray
American liberty in pursuit of un-
American ends. We shall oppose all
both our great political parties will
support and defend the Declaration of
Independence in the close of the cen-
tury."

The declaration closes with an appeal
for cooperation "of all men and wo-
men who remain loyal to the Declara-
tion of Independence and the Constitu-
tion of the United States."
George C. Mercer of Philadelphia
made an address on "President Mc-
Kinley." This last address of the
evening was made by Prof. Shorey of
the Chicago University.

BOURKE COCKRAN'S TALK.
[ASSOCIATED PRESS NIGHT REPORT.]
CHICAGO, Oct. 18.—The anti-impe-
rialist meeting at Central Music Hall
last night drew the largest crowd
Cockran of New York delivering the
oration of the evening. The hall was
filled, and the remarks of the orator
were greeted with approval by those
present.

Cockran based his objection to the
policy of the government on the broad
ground that one people had no right to
force a government on another. He
discussed the question in a dispassion-
ate manner, claiming that there were
many reasons why the United States
should hold the islands, but no reason
why it should attempt to force upon
any people a form of government to
which that people objected. The con-
ference adjourned at the conclusion of
Cockran's address, those in charge of
the meeting expressing themselves as
delighted with the success of the affair.

CROCKER HYPNOTIZED.

New York Boss Promises Bryan
Support in the Convention.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Oct. 18.—[Exclusive
Dispatch.] Dick Crocker, the Demo-
cratic boss in New York, has climbed
into the Bryan band wagon and taken
a seat close to the driver. Crocker has
promised that New York will send a
Bryan delegation to the next Demo-
cratic convention. The promise was
made to Bryan's manager this week.
Bryan believes Crocker, and will trust
him.

AGAINST ASSESSMENTS.

[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Oct. 18.—The Post-
master-General has issued a formal
warning to all postmasters against the
levy of political assessments and simi-
laneously the Civil Service Commis-
sion has called attention to the law
governing the subject and of the com-
mission's intention to enforce it. This
general warning is similar to that is-
sued heretofore prior to political cam-
paigns, and it is understood, follows
complaints of specific violation of the
law received from Ohio and States
where elections are to be held this
year.

GEN. HENDERSON.

[ASSOCIATED PRESS NIGHT REPORT.]
DAYTON (O.), Oct. 18.—The Vic-
toria Theater was filled to overflowing
tonight to hear the next speaker of
the House of Representatives, David
B. Henderson of Iowa, and Senator
Joseph B. Foraker on the issues of the
campaign. Gen. Henderson arrived
the afternoon, and was driven out to
the Soldiers' Home where 6000 veterans
gave him a cordial greeting.

Exquisite Cut Glass

We have always been the
leading dealers in fine Cut
Glass in this city, and carry a
larger stock than any two
stores. We are going out of
business and every piece of
these beautiful goods is
marked at greatly

Reduced Prices.

We quote a few figures to
show how things go. Thou-
sands of other pieces equally
as beautiful and cheap.

BARGAIN SALE.

(CONTINUED FROM FIRST PAGE.)

the shipment of arms. The whole cor-
respondence, however, contains no
promises of independence.

Senor Buencamino lays stress upon
letters from Admiral Dewey and Gen.
Anderson requesting passes for Ameri-
can officers and others to visit Filipino
territory, and upon a letter from Gen.
Anderson asking "You and your people
to cooperate with us in military
operations against the Spaniards."

NEWARK BOUND WESTWARD.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 18.—The
cruiser Newark sailed today for Ma-
nila, via Guam. It is understood that
on her arrival at Manila she will be
made one of the blockading fleet to
guard the coast of Luzon to prevent
filibusters landing supplies for the in-
surgents.

The transports Tartar and Olympia
will sail in a few days for Manila with
troops. The charter of the Tartar will
expire in about thirty days. It was
understood that the government will
buy the vessel outright. It is possible
that the transport Manuense will be
exclusively used as an inter-island
transport, after taking troops from
here on her initial voyage.

FIRST MONTANA LEAVES.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 18.—The
men of the First Montana Infantry
left this city for their homes tonight on
a special train.

KANSAS WILL VOTE.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 18.—It was
announced tonight that the Kansas
voters would be mustered out
October 28. This will permit them
to reach home in time to vote.

THE FORTY-FIFTH.

[ASSOCIATED PRESS NIGHT REPORT.]
MINNEAPOLIS, Oct. 18.—The Forty-
fifth Regiment at Fort Snelling will
break camp Sunday morning and leave
for San Francisco, en route for the
Philippines.

LAST REGIMENTS RETURNING.

[ASSOCIATED PRESS NIGHT REPORT.]
YOKOHAMA, Oct. 18.—[Wire from
Victoria, B. C., Oct. 18.] The Fifty-
first Iowa Regiment, the last of the
volunteer regiments to touch at this
port on its homeward-bound trip,
reached here October 3 and left yester-
day for San Francisco.

The Tennesseeans, who form the ex-
treme rear guard of the returning
troops, are reported as under orders to
proceed direct from Nagasaki on ac-
count of the urgent need for reinforcements
for reinforcements now hastening to
Manila.

The departure of the Iowa ends
one of the most remarkable features of
the war, whether it be considered in
the light of the irreproachable conduct
of the great army of Americans pass-
ing through the Philippines, or in the
resolution of the little American com-
munity here, which has in every pos-
sible way ministered to their needs.

SCHEDULE OF TRANSPORTS.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 18.—The fol-
lowing schedule of transports to sail
this month has been prepared by the
Quartermaster's Department:
October 23, Newport, with 69 officers
and 52 men; Manuense, with 28 of-
ficers and 530 men; Tartar, with 45 of-
ficers and 1161 men.
October 25, Benmore, with 28 officers
and 731 men; Peking, with 70 officers
and 1985 men. The Olympia and
Pennsylvania will leave for the North
early next week to take the Thirty-
ninth Regiment from Portland. The
Hancock will be ready to sail about
the 27th inst.

SACRAMENTO "SMOKER."

[ASSOCIATED PRESS NIGHT REPORT.]
SACRAMENTO, Oct. 18.—The local
volunteers of the Spanish and Philip-
pine wars were the guests tonight of
Troop B at a "smoker." During the
evening they were surprised by the ar-
rival from San Francisco of the medals
given by the Native Sons to all re-
turning Californians from the battle-
field, which were presented to the vol-
unteers with speech-making, etc.

OFFICERS HAVE FEARS.

[ASSOCIATED PRESS DAY REPORT.]
VICTORIA (B. C.), Oct. 18.—The
steamer Empress of India, which has
reached here from Japan, has com-
pleted the roughest trip of her forty-
three voyages. The second day out
from Yokohama she encountered a
typhoon which smashed all telegraph
communication between the engine-
room and the bridge, and destroyed
some of the stowage. The storm con-
tinued unabated a day and night.

Fears are expressed by officers for
the transport steamer Senator, carry-
ing home the Fifty-first Iowa Regi-
ment. She left Yokohama for San
Francisco eight hours before the Em-
press, and having immense upper
works, would fare badly in a gale.

MILITIA'S NEW TASK.

[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Oct. 18.—Gov.
Steunenburg of Idaho called at the
War Department today to confer with
Secretary Root respecting the order
the department was about to issue for

AN UNDERWEAR EVENT For Men, Women and Children.

An Annual Sale at the Broadway Department
Store, Friday, Saturday and Mon-
day Next.

This is the best news in this morning's Times. Thrifty, thoughtful folks will be in-
terested.
It's a movement we planned last June—and holds within its grasp a larger variety—
better qualities and lots lower prices than any similar underwear event in the history of
Los Angeles selling.

Prices average actually a quarter less than at any other time.
Wool garments will be as cheap as cotton ones.
And Union Suits will be almost as cheap as single garments.
No one who needs underwear can afford to overlook this chance. You'll pay dearly for
your experience of you do.

Child's Jackets Lowest Prices. Highest Qualities.

Mothers like them. They are so pretty
and so cheap. They have no equals
in style or making and there's such a
variety as to meet the demands of
every taste.

At 1.14 Box jacket
style with deep
sleeve collar, a pocket and
fancy stitching—plain greens
and blues, brown and tan.
At 1.98 A natty kersey
jacket in plain
blues and reds, with a double
collar and trimmed with two
rows of braid—contrasting
shades.

At 1.48 A stylish Jack-
front, a scolloped sailor collar
and braid trimmed in
blue checks of greens and
blues.
At 2.10 A child's coat
in blue and red, with a double
cape is trimmed with
angora fur, blue, red and
brown shades.

the hall to bar the students out.
As the carriage containing Dr. Dowle
approached the hall the alleged healer
was greeted with yells and a shower
of missiles. In a few instances stones
were used and ammonia by the pint
was thrown into the carriage. Guarded
by the police and dodging the missiles,
Dowle was driven to the door of the
hall, where he was dragged through
the throng by half a dozen officers. The
students were forced back by the po-
lice, but managed to hurl enough bot-
tles of ammonia into the hall to force
the waiting audience to rush out into
the air. To the few who remained
and Queenstown, among the other
mild affair compared to the harangues
he frequently bestows upon the med-
ical profession.

Bottles of ammonia were hurled
through the open windows, and when
the windows were closed, the glass was
smashed with stones and the tide of
ammonia flowed steadily in. The
students made a determined effort to
mob Dowle as he left, and the police
were forced to use their clubs vigor-
ously to force a passage for him. Sev-
eral students were arrested and taken
to the Police Station with difficulty,
their companions making determined
efforts to rescue them.

Arrivals from Europe.
NEW YORK, Oct. 18.—Right Hon. D.
T. Lord Mayor of Dublin, and John
E. Redmond, M.P., arrived late tonight
at Quarantine on the White Star line
steamer Majestic from Liverpool and
Queenstown. Among the other pas-
sengers are Justice D. J. Brewer, Jus-
tice Carter, Chief Justice Fuller and
family and Nelson Morris.

Extinguished the Whole Family.
MINNEAPOLIS, Oct. 18.—A special
to the Times from Redwood Falls,
Minn., says that Frank E. Babcock,
a farmer residing near that city, killed
his wife and three sons on his farm
today, in a fit of insanity. He then
took his own life.

CASTORIA

The Kind You Have Always Bought has borne the signa-
ture of Chas. H. Fletcher, and has been made under his
personal supervision for over 30 years. Allow no one
to deceive you in this. Counterfeits, Imitations and
Substitutes are but Experiments, and endanger the
health of Children—Experience against Experiment.

What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops
and Soothing Syrups. It is Harmless and Pleasant.
It contains neither Opium, Morphine nor other Narcotic
substance. Its age is its guarantee. It destroys Worms
and allays Feverishness. It cures Diarrhoeas and Wind-
Colic. It relieves Teething Troubles, cures Constipation
and Flatulency. It assimilates the Food, regulates the
Stomach and Bowels, giving healthy and natural sleep.
The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought
Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years.

This offer includes the gift of the New Companion Calendar—the most beautiful one ever given to friends of The Companion. 6288

Send your address on a Postal and we will mail you our Illustrated Announcement Number, containing a full prospectus of the Contributors and Contributions engaged for the new volume.

THE YOUTH'S COMPANION, Boston, Mass.

DR. LIEBIG & CO.,
The Old Reliable, Never-Failing Specialists. Established 17 years. Dispensaries in Chicago, Kansas City, St. Louis, St. Paul, San Francisco and Los Angeles. In all private diseases of men.

Not a Dollar Need Be Paid Until Cured.
CATARRH a specialty. We cure the worst case in two or three months. Discharges of years' standing cured promptly. Wasting drains of all kinds in men or women speedily stopped.

Examination, Including Analysis, Free.
No matter what your trouble is, nor who has failed, come and see us. You will not regret it. In Nature's laboratory there is a remedy for every disease. We have the remedy for yours. Come and get it. Persons at a distance can be CURED AT HOME. All communications strictly confidential. Call or write. The poor treat! Free on Fridays from 10 to 11. Address

123 SOUTH MAIN STREET
Los Angeles, Cal.

P. & B. RUBEROID ROOFING

No Cool Tar, no Asphalt, all ready to lay. Will not deteriorate with age.
PARAFFINE PAINT CO., 312-314 West Fifth Street, Los Angeles.
Get our light grade for BELGIAN HARE HOUSES.

TRUSSES Elastic Hosiery made to fit.

W. W. Sweeney, 218 W. Fourth Street.
(Removed from Spring St.)

Chainless Noiseless Bicycles

Park Cyclery. FOR RENT. 518 South Hill.

CONSUMPTION CURED

by the WHITMAN METHOD.
Patients treated home or at the Institute. Symptom blank and treatise on "Consumption Cause and Cure" sent free. Koch Medical Institute, 414 South Spring Street, Los Angeles, Cal.

Copper Plate Engraving and Printing

Announcements, Invitations and Calling Cards.
The Whedon & Spreng Co., Society Stationers, 204 S. Spring. Wilcox Block.

Well-Merited Praise

Did you ever stop to think that the well-known cooking experts and lecturers on pure foods—Mrs. Rogers, Mrs. Lincoln, Marion Harland, Mrs. Owens, Mrs. Bwing, Mrs. Parker and many others, all use and recommend Cottolene in preference to all other cooking fats? These talented women testify to the excellence of

Cottolene

They know from actual tests and experiment that it is better, more healthful and more economical than all other shortening and frying mediums. Is not their opinion worth something to you? Try Cottolene once according to directions, and you will always use it.

The genuine Cottolene is sold everywhere in one to ten pound yellow tins with our trademark—Cottolene—and a star's head in cotton-plant wreath—on every tin. Not guaranteed if sold in any other way. Made only by

THE N. K. FAIRBANK COMPANY, Chicago. St. Louis. New York. Montreal.

Grand Fall Opening

Saturday, October 21st,
H. COHN & CO.,
142-144 N. Spring Street.

We are Serving
Russian Tea Free
It is Delicious.
GOODENOW, SHELTON CO.,
125 S. Spring St. and 211 W. Second St.

A Solid Oak Sideboard

French Bevel Mirror at \$9.85.
Southern Cal. Furniture Co.,
312-314 S. Broadway.

Gentlemen! Try our new Men's Black Box Calf in New Princeton toe or English toe. Goodyear welt soles, fast color eyelets, all widths, and all sizes for \$3. This shoe is a trade winner, both as a seller and also as a wearer.
Hamilton & Baker,
229 South Spring St.

BARTLETTS

Will Move to Broadway

But before we go we expect to do a whole lot of business, and we expect to do it quick.

We are going to sell the remaining stock of

Pianos

At unheard-of prices. We have had wonderful success during the past three weeks of our great removal sale, but we still have 76 Pianos to close out. All new and fresh goods. The prices are down to wholesale, and the

Terms: \$25 Cash. \$10 a Month.

You must not lose sight of the fact that this is not simply a Piano sale, but that you can purchase now any

Sheet of Music, Any Music Book, or any...

Musical Instrument

At cost or less. There is not anything you cannot buy at less than it costs to replace it. You can't run against anything but a bargain.

BARTLETTS

The Times' Home Study Course

DIRECTED BY PROF. SEYMOUR EATON.

HOME SCIENCE AND HOUSEHOLD ECONOMY.

Contributors to this course: Mrs. Helen Campbell, Mrs. Margaret E. Sangster, Mrs. Kate Gannett Wells, Mrs. Louise E. Hooper, Miss Anna Barrows, Mrs. Mary Roberts Smith, Miss Edna G. Hatch, Miss Lucy Whelock and others.

I—THE HOME CONSTRUCTION.

"If men lived like men indeed, their houses would be temples, which we should hardly dare injure and in which it would make us holy to be permitted to live." I would have, then, our modern dwelling-houses built to last, and built to be lovely, as right and full of pleasantness as may be, within and without, and with such differences as might express each man's character and occupation and partly his history.

In our American life, with its perpetual strain for something better than its past has known, each man may be said to build a house to escape from rather than to record his history. The majority prefer not to look backward, and the new house enshrines no memory of the early days of its owner, which may have been in dug-out or cabin or in one of the uncomprehensibly hideous little boxes that make the suburbs of many cities. But Ruskin, whose words open this paper, is a usual right in his demand that the house of man shall be something it seldom occurs to us to make it—temple wherein ordered and harmonious growth may be part of the daily life. The house should be the best and utmost expression of the home spirit; the best adaptation of means to ends; utmost convenience and comfort for all under its roof; the greatest ease in necessary work; the best space for individual as well as family life. How this is to be brought about? The plan is left to the general builder, the contractor, whose business it is to make as much show for the money spent as he can, and to the skimp and curtial in whatever is out of sight. Cheap building—houses "made to sell"—is the first consideration. Houses made to last and to improve with age have not yet entered our thought of construction.

At this point we see, then, certain needs defining themselves, and we may well group them under their distinct heads. We are to consider

a. The individual plan.
b. General sanitary aspects.
c. Materials and their handling.
d. Construction and its ethics.

In the limited space at command only suggestive under each head can be given, but it is hoped that the reader will gain from them some new thought as to the real nature of building, and what it may stand for in every human life. We have first to consider, then,

THE INDIVIDUAL PLAN.

It will at once be insisted that there can be no need of this, in face of the fact that we have many books, large and small, devoted to the plan for all sorts and conditions of men and their dwelling places. There are admirable ones to be mentioned, but this does not detract from the discovery made by all who buy house that they would have built it quite differently at many points. It is not very recently that the architect's conference in one of our great cities brought from one prominent member a recommendation that they turn their attention to the architecture of farm houses, and a better future thereby awaits the farmer's wife and children, at present compelled to live in structural ugliness and discomfort, and to kill out the sense of beauty as thoroughly as we find it to be killed out in the mass of our people.

This is in one phase, and it applies to workmen's houses of all degrees. Another one and quite as important is that according to the different purposes of the family should be the type of room offered them. A pair list beginning life together may take the average flat or small house. But presently the children and their needs are considered. It is found that the nursery or the living-room which must perhaps serve this purpose, has no sun and is made for the growing child, whose birthright is sunshine and the strength and healing it means for all. With the departure of the old-fashioned garret, or playground for the child, an invaluable one since gave room for infinite "make-believe," vanished also. Yet the child should have its own play space, sacred from intrusion, preferably as remote from the other rooms as possible that its noise on rainy days may not interfere with others: a place for collections, for orders, for toys and books and the tools the child loves to use, and which are part of the training in use of hand and brain. Further, that presently we are all to know is the first essential of education.

All this is to be planned for, and it often possible to modify or alter the formal plan of the architect and secure this space. But the least skilled draughtsman can take pencil and paper, think out the family needs as they have demonstrated themselves, and see first how to make a rough plan, then, how to make the available space tell to the utmost for the comfort. No matter how small the sum, it will be better to do without a formal parlor we will say, have a living-room, amply and generously put the money saved into deadened floors and the best finish. This matter of deadened floors is seldom thought of, yet for the most nervous person in Christendom it is an essential. We all know the houses where every sound is heard throughout, and no escape for the mother, for ailing babe, for the invalid, if there be one, or the patient who wants only quiet and rest to come to strength speedily. In our sound-boarded houses this form of cure is impossible, but it need not be. Plan then to these ends, and see if there is not instant gain in the conception of the meaning of the house and what it is to stand for in the family life.

GENERAL SANITARY ASPECT.

This heading means a volume. To understand it fully there should be some very earnest study and the books best adapted to this end are named in the little bibliography accompanying this paper. The shortest, most compact and most practical is a manual prepared under the direction of one of the ablest of American women, Mrs. Ellen H. Richards, professor of chemistry in the Boston Institute of Technology. "Home Sanitation" is its title, and it covers the ground for both city and country as to the situation of the house, its drainage and plumbing, its ventilation, heating and lighting, a set of questions at the end of each chapter fully clear little chapter clinching all doubtful points. There are many elaborate manuals, but this one and one or two others cover all the ground and must be thoroughly learned. A dry and well-drained soil, a house planned for as much sunshine as possible in every room, and perfect drainage are the requisites for even the simplest dwelling. In the city the size of the lot determines much. In the country it can always be remembered that it is

by no means necessary to face the street and that turning the house door to the side may admit the sun to much better advantage. Store-rooms are better on the north side for coolness, and the spare room, even used probably than any other, can much better dispense with sun than those in constant use. A little thought over the general plan will settle many questions of this nature.

MATERIALS AND THEIR HANDLING.

This is a matter supposed usually to be quite beyond the comprehension of women. Yet every woman can in a short time learn the difference between good and bad mortar, between seasoned and unseasoned wood, between well-laid courses of brick and the makeshift which marks much of the cheap building. She can learn also what constitutes a good cellar and good foundation, how a cellar floor should be made, with the virtue of cement and the value of smooth cellar walls. These are all phases of home sanitation, and an honest materials put together are an essential part of it. Cracking walls, settling and uneven floors, baseboards shrinking away and doors sagging are due to the lack of knowledge of the use of cement and the value of smooth cellar walls. These are all phases of home sanitation, and an honest materials put together are an essential part of it. Cracking walls, settling and uneven floors, baseboards shrinking away and doors sagging are due to the lack of knowledge of the use of cement and the value of smooth cellar walls. MORE AID FOR AGUINALDO.

Out of a population of about 80,000,000, the anti-expansion lawmen have succeeded in getting together one hundred and sixty persons in the "Windy City," for the purpose of "launching a crusade against the policy of the administration in the Philippines." The tenor of the speech-making at this gathering is of course bitterly hostile to the administration, which is, for the time being, the American government. These men, who call themselves American citizens, and talk grandiloquently of liberty and of loyalty, have voluntarily placed themselves in an attitude of hostility to the government whose protection they enjoy, and in a position whereby they extend aid and encouragement to the armed enemies of their country and its flag. They occupy very much the same relation toward the American government and the American flag as do Aguinaldo and his rebel hordes, with the exception that the latter have the courage to fight, a part of the time at least, while the American Filipinos have courage only to pursue the methods and the tactics of the assassin.

This meeting in Chicago will beyond all question be the direct cause of the sacrifice of many American lives in the Philippines, to say nothing of the sacrifice of many Filipino lives for each and every American life sacrificed. The lives which will be sacrificed in the Philippines as a result of this Chicago meeting will without doubt far outnumber the total attendance of delegates at the "anti-imperial" gathering. The speeches made by Carl Schurz, J. Sterling Morton, and other Filipino sympathizers, will be spread broadcast among the rebels as representing the sentiments of a considerable proportion of the American people; whereas, they represent the opinions of only a small but very noisy clique of white-livered, half-hearted cranks and malcontents, with too little patriotism and common sense to perceive that they are making blithering asses of themselves, in addition to being guilty of conduct which is clearly treasonable. The utterances of these men, being spread among the rebels as representing public sentiment in the United States, will encourage them to persist in their warfare against our flag; will raise in them false hopes, and will lure them to their own destruction. For nothing is surer under heaven than that the Tagal rebellion will be put down, and that our flag will float in undisputed authority over these islands that are ours as rightfully and as completely as is any other part of our national domain.

The greatness, the tolerance, the self-contained strength of our government, are forcibly illustrated in the fact that these latter-day copperheads are permitted to spawn their treason in public without let or hindrance. They are personally fortunate to live in a country which is great enough and magnanimous enough to regard them with the contempt which they more than deserve.

ANOTHER UNSEEMLY CONTROVERSY.

The country will hear, with sorrow, of the breaking out of trouble again between the army and navy with reference to the surrender of the Spanish army at Santiago. So far as can be judged, the army and the navy each did its full and complete duty at Santiago, and the results there attained afford enough of glory to either branch of the service to make contentment about where most of the credit should lie, a most regrettable performance. There have been numerous exhibitions of narrowness, pettiness and envy since the close of the war with Spain, between the officers engaged, but none of these controversies have been more regrettable and unfortunate than the one now being discussed through the efforts of Admiral Sampson to have undue credit given to Capt. Chadwick of his fleet. It is time for this unsoldierly, unseemly-like, un-American and unmanly squabbling to stop. The country wears of the debate.

The glorious climate of Colorado is just now entertaining a robust snowstorm, with its attendant displeasures to the sheep crop and more or less suffering to that branch of the human family which dwells in the Centennial State. The moment is opportune for the Denver Post to burst into song regarding the charms of life in the land of free silver, woman suffrage and other unique features that are so pronounced in that snow-clad part of our favored land.

OUR MERCHANT MARINE.

At the nineteenth annual session of the Farmers' National Congress, which was held recently in Boston, the following preamble and resolution were unanimously adopted:

"Whereas, The interest of the whole country, the reinforcement of our navy, the enlargement of foreign markets for our surplus products, the increased employment of our workmen in the mine, foundry, factory and shipyard, and the training of able seamen, would all be promoted by the restoration of our merchant marine to its former position on the seas of the world; therefore,

Resolved, That in our opinion, it is the duty of Congress, at the earliest day possible, to enact legislation to secure such restoration by the extension of such aid to American-built mail carriers and freighters as will enable them to successfully compete with the subsidized and subsidized merchant ships of foreign countries in the carrying of our imports and exports."

The suggestion contained in this resolution embodies a question of the highest importance, which undoubtedly should receive the early and earnest attention of Congress. It is a fact to be deplored and a condition to be remedied, if possible—that our merchant marine has dwindled for many years past, until it is today insignificant as compared to its former greatness, or to what it might and would have been if it had kept pace with the development of the country. We have permitted the ocean-carrying trade to be taken away from us, to a large extent, and monopolized by other nations (by Great Britain in particular), until we rely in large part upon foreign bottoms for the carrying of our own freights.

The advocates of free trade tell us that the decrease of our merchant marine toward the vanishing point is due chiefly to the policy of tariff protection; but they fail signally to make good their contention when required to furnish a bill of particulars, and their case thus far stands unproven. The simple truth of this matter is that our merchant vessels have been driven from the high seas chiefly because they could not profitably compete with foreign ships. One of the principal reasons for their inability to compete successfully with foreign ships, is the fact that some of the European governments pay liberal bounties to the owners of their better class of vessels. The government of Great Britain, in particular, is exceedingly generous in the payment of these subsidies, which take the form of subsidies for carrying the mails, and of bounties for holding the vessels liable to service as a sort of quasi-naval reserve in case of war. The British government pays out many millions of pounds annually in this way, and this is manifestly a tremendous factor in enabling English ship-owners to underbid Americans in competition for the ocean-carrying trade.

The advocates of American subsidies to American ships claim that in order to place our merchant marine upon something like an equal footing with the merchant ships of England, we must pursue the same policy as England pursues, and must pay liberal bounties for the carriage of mails and for the retention of certain available vessels as an auxiliary naval reserve in time of war. They point out that in the early days, when our vessels were generously subsidized, the merchant marine of the United States grew rapidly, until the white wings of our commerce were seen in every clime and upon all the seas. And they maintain that if we were to return to the system of liberal bounties, our carrying trade would eventually be regained. This whole question should receive the attention of Congress at an early day.

If the dispatches from the South African seat of war are to be relied upon, the British garrison at Mafeking have made a sortie with but small losses and with much loss to the Boers. As there are but 600 British soldiers garrisoned at this point, and as Mafeking is invested by 3000 of Kruger's troops, it will be safe to accept this intelligence with many grains of allowance. If it is correct that the Boers have lost 300 and the British but eighteen, it is safe to assume that the losses have been occasioned by an assault on the part of the Boers and not by a sortie on the part of the Englishmen. However, events are leading up to a tragedy at Mafeking, and, from indications, the world will not have to wait long to hear the details thereof and to read the roster of the slain and the wounded.

A movement is on foot to establish a hemp factory at Yuma, Ariz. It is well to have factories located at points where the product is in great demand. As a long-felt want a hemp factory at Yuma would seem to be emphatically "it."

Although Admiral Dewey has been home several weeks, we haven't caught sight of any bouquets that Edward Atkinson and his pals have heaved at him.

JIM JONES, THE PROPHET.

Our esteemed contemporary, the New York Sun, has heard the sound of rejoicing uttered by the Bryanite statesman from Arkansas and makes public the following observation, with respect to that ever-jovial and hopeful gentleman:

"The Hon. Jim Jones is once more bathing the country in the light of political prophecy. He has elected Bryan once more and will carry for him every State and Territory and Deaf Smith county, Tex., before the overcast season is in its bloom. Nobody else is so full of hope and harmony. Arkansas is too narrow for such an imagination. He should come to New York and sell racing tips."

It is certainly glad some to observe Mr. Jones doing one of his feats of prophecy without stripping off his coat or taking an hour's training. In the domain of the seer the esteemed gentleman of the National Democratic Committee is certainly a wonder of wonders: a colossus among giants; a world-beater from that land where bayou sozzles in the lowlands, where the cotton crop whitens the river bottoms, and where the snuff-dipper paints his gums and drools. Gifted with a natural capacity for prophesying, Jim K. Hopeful Jones of Arkansas has so cultivated his wonderful talent that, though bucked and gagged and located astraddle of a stake-and-rider fence, he can look into the future and see things that baffle the bare imagination of the normal cuss who has just the average amount of brains and common sense. If, as our esteemed New York contemporary suggests, Bre' Jones should divert his wonderful talent to giving tips on the races, his tippees could win enough money to run a campaign without the assistance of Coin Harvey or of any other of the hat-passers who ever undertook the stupendous task of booming a Boy Orator and of making an intelligent people believe that a 50-cent piece is worth \$1. Goodness gracious, but isn't Jones just great?

The convention of has-beens at Chicago—J. Sterling Morton, Carl Schurz, George H. Boutwell (the latter by letter) and some few others—which was held on Tuesday and yesterday, has listened to Mr. Schurz's mugwumpian rant and Mr. Morton's few remarks, but none of the transports loaded with troops for the Philippines has yet been turned back, nor has any tendency been shown to haul down the American flag in any part of our common country, whether it be on the mainland or upon our far-distant islands. The convention of the "anti-imperialists" at Chicago is not likely to result in anything more serious than several exceedingly offensive cases of indecent exposure. When the mugwump and the copperhead lie down together, however, what else ought we to expect?

The Filipino officers who are circulating reports to their discouraged soldiers that unless the Americans conquer them within one month President McKinley intends to give them their freedom and withdraw the American troops from the Island of Luzon, seem to be adapted to the profession, or what-you-may-call-it, of yellow journalism. An army that has to have its spirits kept up by lies and deception is hardly one that can be expected to achieve the winning of battles or make a success of campaigns.

It will be remembered that the English press made numerous salty remarks at the outbreak of our war with Spain regarding our dilatoriness in getting a force into Cuba. If the American press had any inclination to retort in kind the opportunity is ample. However, let us be generous and refrain from making allusions for which we have had ample provocation.

School Superintendent Andrews of Chicago objects to the reading of Kipling's "Recessional" in the public schools of that city. Those verses, however, would, in all probability, not be nearly so demoralizing to the pupils as it would be to listen to Mr. Kipling's remarks on the subject of Mr. Andrews were they to hear him from the poet learns about this little affair.

Speaking of his reception in Boston, Admiral Dewey, in the course of his speech in that city, said: "The ovation which was given me last night I believe has never been equaled in the lifetime of any of us. At any event, I never saw the equal of it." It would be interesting to know what New York thinks of Cousin George's few remarks on the subject of receptions.

The English press takes the disaster to the Shamrock and the loss of the first race very complacently and philosophically. But this is not to be wondered at, as our contestants have had something like fifty years in which to become inured to this hardship of being defeated.

Our ever-truthful and reliable contemporary, the Denver Post, mentions the remarkable case of a Kansas woman who is suing a man for heavy damages for shaking her hand so hard that he broke her leg. The lady must have been unusually short-waisted.

President McKinley's speeches, which he is making to the people in his trip across the continent, reminds us that no one has ever heard a Republican orator going up and down the country shouting calamity. It takes a Democrat to do that sort of thing.

The more one reads of the manly and sportsmanlike attitude of Sir Thomas Lipton, in respect to the International yacht race, the more he is convinced that the Shamrock deserves to have won on the merits of the man who paid for its construction.

We are glad to notice that, even though England is in the midst of war, she has time to fix up a modus vivendi with her big sister, the United States, on the Alaskan boundary question. We can use a modus in our business just now.

Maj. Marchand wants to go to the Transvaal and fight the Boers. The time for him to have fought them would seem to have been in the Fashoda campaign, where there was a fair field and ample provocation.

A certified check for \$300 was offered to William J. Bryan, but it failed to

cure a speech from him at the Fort Scott, Kan. Convention.

The Kansas City Star speaks of Mr. William T. Stead as "the Edward Atkinson of England." If Mr. Stead doesn't bring a libel suit for this unhandsome allusion he is no lady.

The English anti-expansionist and his American confederate ought to hold an international convention; first hiring a hall, and then weep down the back of each other's neck.

The editor of Patria, the seditious newspaper at Manila, may also be heard muttering in his beard some highly-flavored remarks regarding the press censor.

The cranberry crop is reported to be short this year, and its therefore looks as if the fall style of turkey would have to get along without red trimmings.

It would be difficult to convince the people of South Africa that that Hague peace conference was worth within 125 per cent. of what it cost.

Let us give the devil his due; Mr. Kruttschnitt and his accident cycles are taking a lot of the traveling public much needed rest.

Here's looking at you, Sir Thomas; may you today have good luck, a spanking breeze and a fair chance all around.

Fix one eye on Talaric and the other on Mafeking, as something is likely to be doing at both those points, may pronto.

The English navy will probably feel that it has a grievance because there is no place where it can get into the scrap.

Just wait until Jim Creelman gets over to the Boer front and then we'll hear some war stories.

The Orange Free State looks as if it might be in a position to get squeezed.

Come, come, Shamrock, get a hustle on you today, just to make it interesting.

The Queen now has a Parliament on her hands.

UNITED PRESBYTERIANS.

PRESBYTERY MEETS AND YOUNG PEOPLE HOLD CONVENTION.

Steady Growth of Churches Reported—Work of Younger Members of Sunday-schools of Presbyteries Elected—Missionary Meeting.

The semi-annual business meeting of the Los Angeles Presbytery of the United Presbyterian Church opened yesterday morning at the First Church of that denomination, corner of Hill and Eighth streets. Rev. S. J. Shaw of San Diego was moderator, and Rev. A. W. Jamison of Wildomar acted as clerk of the meeting.

Routine business of the association was transacted, and reports from the various churches of the presbytery were read. These reports indicate a slow but steady growth in most of the churches, and as a whole were considered encouraging. Increased interest was reported in First Church, Los Angeles, since the completion of repairs on the edifice, and the financial affairs of that body were declared to be in a satisfactory condition.

A revival in Sunday-school work was reported from San Diego, and a movement to get into Cuba. If the American press had any inclination to retort in kind the opportunity is ample. However, let us be generous and refrain from making allusions for which we have had ample provocation.

The business of the presbytery came to an end, and adjournment was taken at noon.

At 2 p.m. the young people of the presbytery met for the continuance of their work, which began on Tuesday night. Short devotional exercises preceded the business session, which was presided over by Rev. M. W. Kipling. Reports from the various churches of that county for conference action in this matter. Beginning the second Tuesday in November a house of prayer will be held, and the work will be continued until the desired work is accomplished.

The evening and closing session of the convention was devoted to the reading of "Our Young People and the Missions." George C. Hill was chairman. A paper was read by Miss Clara M. Harris of Pasadena on the need of workers in the field, while Miss Finney of Los Angeles read a paper prepared by Miss Elliott of Santa Ana on "Systematic Giving." Miss Nellie Forbes and A. Cox. W. H. McHenry was appointed the secretary.

TOUR TO END TODAY.

PRESIDENT WILL REACH THE CAPITAL BEFORE NOON.

Has Traveled Five Thousand Miles and Made a Hundred Speeches. Last One Delivered Yesterday at Youngstown, O.

Twenty Thousand People Crowded the Streets About the Platform and Cheered His Remarks With Greatest Enthusiasm.

Chief Executive Attends Wedding of His Nephew—Receives the Friends of His Boyhood. The Cleveland Stop.

[ASSOCIATED PRESS NIGHT REPORT.] YOUNGSTOWN (O.) Oct. 18.—President McKinley's special train arrived here at 5 o'clock this evening, and the Chief Executive delivered the last speech of his tour. The train was backed into a side track, and the President and the Cabinet members went onto a platform near by for a five-hour stop. Apparently everybody in town had crowded into the two streets flanking the platform. It was with great difficulty that the President could make himself heard. It was estimated that 20,000 people were crowded into the narrow space surrounding the speaker's stand. As the President proceeded the crowds became quieter and enthusiastically cheered every word of his address. Secretary of the Navy Long and Secretary of the Interior Hitchcock also spoke briefly.

Having taken their dinner aboard the train, the President, Mrs. McKinley and Miss Barber were driven to the residence of Dr. Frederick North Phelps street, to attend the wedding of Miss Anna Viola Dietrick to Dr. William McKinley Duncan, son of Andrew K. McKinley, the parlor of the Duncan home were tastefully decorated with orchids and smilax.

The wedding ceremony was performed shortly after 8 o'clock, Rev. H. S. Fraser officiating.

An hour later the President and the Cabinet members entered carriages and were driven to St. Columbia's Hall, where a public reception was given. The President greeted hundreds of his boyhood friends with a hearty handshake and a kind word. The reception lasted until 10 o'clock. At that hour the party returned to the train, which left immediately for Pittsburgh over the Pennsylvania road.

YESTERDAY MORNING'S STOP. [ASSOCIATED PRESS NIGHT REPORT.] CLEVELAND (O.) Oct. 18.—President McKinley and party reached this city at 8:45 o'clock this morning. A reception committee and members of the City Council, headed by Mayor J. H. Farley, welcomed the President.

Arrangements had been provided for a limited drive out Euclid avenue, through Gordon and Wade parks. President and Mrs. McKinley dropped the car of the hotel and called on Mrs. W. J. Hanna, the President's sister, whose home is on Oakdale avenue. When the procession turned back to the hotel, the President's carriage was again at its head.

At the Hollenden Hotel a short reception was held. President McKinley, Secretary Long and Senator Hanna spoke briefly. Several hundred G.A.R. men called to pay their respects.

Col. Myron T. Herrick entertained the Presidential party at luncheon this afternoon. Senator and Mrs. Hanna gave a reception to the cabinet officers at the Union League Club.

At 2:30 o'clock the Presidential special train left over the Erie line. Whittier, Pa., will be reached at 11:30 a.m. Thursday via the Pennsylvania line. A total of 5000 miles will have been covered, and President McKinley will have made almost a hundred speeches.

HIS BIRTHPLACE. [ASSOCIATED PRESS NIGHT REPORT.] NILES (O.) Oct. 18.—In this town President McKinley first saw the light of day. Thousands of his boyhood friends gathered at the railway station, this afternoon, to bid him on his journey back to Washington.

Only three of the Cabinet members remained in the party which appeared at the station. The President, Secretary Long and Senator Hanna were the only ones who were with him when he was met by the warm reception which awaited them here.

TRADE WITH CHINA.

Warehouse for Displaying Samples to Be Established at Shanghai.

PHILADELPHIA, Oct. 18.—With reference to the warehouse which the National Association of Manufacturers is to establish at Shanghai, China, President Theodore C. Search makes the following statement: "For more than six months past, the National Association of Manufacturers has been making preparations for the establishment in Shanghai of a large warehouse for the display and sale of American goods made by the members of the association, and we have advanced so far with our plans that we shall probably be able to open the warehouse for business about the first of the year."

"We have no thought of erecting a building, as has been stated in the papers, and there is no connection whatever between the American warehouse in Shanghai and the National Export Association in Philadelphia, or the Philadelphia Commercial Museum. There is no intention to take exhibits from the exposition to our warehouse in Shanghai, and none of the exhibitors has been approached with any such proposition. The warehouse in Shanghai is exclusively an affair of the National Association of Manufacturers, and its facilities will be available only to our own members, a large number of whom have already contracted for space for the display of their samples."

The warehouse will contain two departments, one for the display of goods and the other for making sales. The financial arrangements which have been made in the United States and in China will permit the transaction of all business upon a cash basis, and any goods that may be sold through the warehouse will be paid for at the time of shipment from the United States. The association itself will not undertake any business transactions, but the selling department will be conducted under the supervision and control of the association, and every provision will be afforded for the protection of its members and for promoting their business.

"I regard this movement on the part of the association as the most important step that ever has been taken in China with a view to extension of American trade in that country. It will be entirely an American institution from beginning to end. This warehouse will be the second in a series of such establishments which the association has undertaken. The first was opened in Caracas, Venezuela, a year

and a half ago, and plans for others to follow the one in Shanghai are now under consideration."

GEN. EZETA'S MISSION.

Ex-President Returns to San Salvador to Start a Revolution.

[A. F. EARLY MORNING REPORT.] CHICAGO, Oct. 18.—A special to the Record from El Paso, Tex., says that Gen. Ezeta, ex-President of San Salvador, and an exile from that country, who disappeared mysteriously from his home in Oakland, Cal., where he had lived for three years, came to El Paso Saturday last, and has left over the Mexican Central Railway for the City of Mexico, in company with J. H. Holmes and C. S. Greene. Holmes is of the Turbide Hotel of the City of Mexico, and Greene is the City Attorney of Pasadena, Cal.

Gen. Ezeta disclosed his identity to an official of the Mexican Central Railroad at Juarez, Mex. The ex-President said he had become tired of his banishment from his native country, and preferred to die in an attempt to free his people from tyranny than remain an exile for life. Gen. Ezeta said he and his party would confer with the Mexican executive on the subject of a revolution in Salvador for the overthrow of the present administration. From President Diaz the general expected assistance and support.

It is understood that Gen. Ezeta will offer to turn Salvador, when subjugated to the republic of Mexico, in return for the financial aid of the Mexican government in his venture.

"H. H.'S" NIECE.

Mrs. W. S. Jackson Kills Herself at Colorado Springs.

[ASSOCIATED PRESS NIGHT REPORT.] COLORADO SPRINGS (Colo.) Oct. 18.—Mrs. W. S. Jackson, wife of the late W. S. Jackson, of the El Paso County Bank of this city, committed suicide by shooting this afternoon. She has been in poor health for some time, and it is believed that self-destruction was caused by melancholia. Mrs. Henry Banfield Jackson was the second wife of W. S. Jackson.

She was a niece of Jackson's first wife, Helen Hunt Jackson, who was well-known as a novelist, poetess, novelist and literary sketches. Mrs. Jackson leaves six children. Her mother lives in Boston.

AUSTRIA'S NEEDS.

Count Clary Speaks at the Opening of the Reichsrath.

[ASSOCIATED PRESS DAY REPORT.] VIENNA, Oct. 18.—[By Atlantic Cable.] The Austrian Reichsrath assembled today with a full attendance. Dr. von Fuchs was re-elected president. The House then proceeded with the work of organization. The president of the Reichsrath, Dr. von Fuchs, declared that the gravity of the situation led the government to hope that the House would assist in establishing normal parliamentary conditions. The government would remain neutral as between the different parties, and he earnestly entreated the different parties to refrain from any disturbances in the House.

"The repeal of the language ordinances," continued the Premier, "has not only established a provisional state of things. While preserving equality of rights for all languages used in the country, the government is determined to settle the question in accordance with present requirements."

Count Clary laid stress upon the importance of the budget, the Austro-Hungarian government, before entering upon its duties, to receive a commission, under the hand of the supervisor of the district to which he belongs, and to take the oath of office. This commission must be made in the handwriting of the official throughout, and must be certified to as such.

"The enumeration required by the census act will begin on the first day of June, 1900, and must be completed within two weeks in all cities for which 8000 inhabitants or more are reported in 1890, and in all other districts on or before the first day of July following."

"It will be necessary for each enumerator, before entering upon his duties, to receive a commission, under the hand of the supervisor of the district to which he belongs, and to take the oath of office. This commission must be made in the handwriting of the official throughout, and must be certified to as such."

The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Oct. 18.—(Reported by George E. Franklin, Local Forecast Official.) At 5 o'clock a.m. the barometer registered 29.91; at 5 p.m., 29.90. Thermometer for the corresponding hours showed 57 deg. and 65 deg. Relative humidity, 5 a.m., 85 per cent; 5 p.m., 75 per cent. Wind, 5 a.m., northwest, velocity 2 miles; 5 p.m., southwest, velocity 3 miles. Maximum temperature, 73 deg.; minimum temperature, 54 deg. Barometer reduced to sea level.

DRY BULB TEMPERATURE.
Los Angeles 54
San Francisco 53
San Diego 54

Weather Conditions.—The barometer has fallen at all stations west of the 105th meridian, and a storm is now central on the Washington coast. Rain has fallen since last report in Northern California, Oregon, Washington, Idaho and Utah. It was raining at 5 a.m. at Roseburg, Portland, Baker, Astoria, Clatskanie and Idaho Falls. Clear weather prevails east of the Rocky Mountains. Temperature changes have been slight, except at Carson City and Red Bluff, where the temperature has risen 10 deg. and 24 deg. respectively.

Forecast.—Local forecast for Los Angeles and vicinity: Cloudy and unsettled weather tonight and Thursday, with westerly, shifting to southerly winds.

SAN FRANCISCO, Oct. 18, 5 p.m.—Following maximum temperatures were reported from stations in California today:
Berkeley 64
San Francisco 64
Fresno 74
Sacramento 70
Los Angeles 70
Independence 68
Red Bluff 68
Yuma 84
San Luis Obispo 68

San Francisco data: Maximum temperature, 60 deg.; minimum, 52 deg.; mean, 56 deg. A storm of considerable energy is central tonight at the mouth of the Columbia River. Rain is falling along the coast from Cape Mendocino northward. Southeast storm signals are displayed from Portland north. North-bound vessels are warned of heavy weather outside.

Forecast made at San Francisco for thirty hours, ending at midnight, October 19:
Northern California: Rain Thursday; high southerly winds.

Southern California: Cloudy Thursday; with rain in the extreme northern portion; southerly winds, high along the coast north of Point Conception.

Arizona: Cloudy Thursday.
San Francisco and vicinity: Rain Thursday; westerly, changing to high southerly winds; southeast storm signals displayed for severe storm along the Oregon coast.

Tide Table.—For San Pedro:
Thursday, Oct. 19 High, 9:00 a.m.; Low, 9:57 p.m.
Friday, " " High, 9:38 a.m.; Low, 10:35 p.m.
Saturday, " " High, 10:14 a.m.; Low, 11:11 p.m.
Sunday, " " High, 11:49 p.m.; Low, 12:51 p.m.

ALL ALONG THE LINE.

A party of sporting Angelenos have closed the mouth of Bolsa Chica Bay with a dam that has had the unexpected effect of opening several and sundry other mouths with euphonious, strident and profane words of remarkable power and penetration. The residents of that district claim the dam backs up the mer water and renders the land about there valueless. The Los Angeles shot 1500 ducks there in one day this week, and don't care a continental who knows it. The question on its merits is up to the local supervisors, and the outcome will be watched by the legal profession with great interest as tending to show just what effect roast duck and a "cold bot" has on the mental processes of men who are up a tree, singing: "Oh, how happy could I be with either, Were 't'other dear chamber away!"

"Sound the loud timbrel!" likewise the healthy horse-fiddle, and any other old thing that will make a noise. Santa Barbara has struck twenty-eight inches of water in the Montecito tunnel. Every friend of the Channel City, on earth and in heaven—and they are legion in both places—will be certain to rejoice over this good fortune. The pluck, perseverance, energy and financial courage that have wrested success from those hills are of the sort that make pioneers heroes, and reflect credit on all who had to do with this onerous undertaking. "Peace hath her victories, no less renowned than war" is proven in this case, and when the history of the triumphs and defeats of public undertakings in California shall come to be written, the story of the peaceful heroism of Santa Barbara's public-spirited men will be high up on the scroll.

The presiding officers of Throop Institute, in Pasadena, and Claremont, are to be commended for their very necessary stand in opposition to youthful license on the part of pupils, which always comes as the logical sequence of too much so-called liberty. Prevention is better than cure, and prevention is a possible and attainable thing in the Montecito tunnel, young lives and aside from other and no less important phases of the question the habit of implicit obedience in young men is a quantity imperatively needed. The timely and effective action of these gentlemen will meet the hearty thankfulness of parents, and will go far to instill into the new scholastic year—and relatively into the minds of the scholars—the fact that these institutions are maintained for something more serious and far-reaching than student horse-play, or the indulgence of questionable rivalries.

Five old "barnacle backs" took French leave from the British ship Arctic Stream at Port Los Angeles on Sunday, and came to town on a quest for "high balls." This is a common occurrence, and a very exasperating and annoying one to the master, who is forced to involve treaty stipulations and procure the arrest of his men on the charge of desertion. In the whole range of growlers there is none so bad as the sailor. So committed is he to this falling that in the absence of any one who would listen to him, he has been known to unload his fancied grievances to the lee side of the windlass bits, and find much relief in the act. Such men enter a saloon, and, being primed with liquor, tell hair-raising stories of fancied wrong and cruelty, and gain a passing sympathy from those who, if they knew the truth, would cause their immediate expulsion. They are simply shirking work they have signed articles to do, and ought not to be harbored or countenanced by those who do not know the other side of the case. Under cover of the resident consular official these men were arrested and returned to work.

UNDERWEAR AT HALF PRICE.

HOBO SEASON OPENED.

CITY BEGINNING TO FILL UP WITH WANDERING WILLIES.

Advance Guard of Brakebeam Tourists in the Police Court—John Martin's Pathetic Story—Battered and Other Misdemeanor Cases.

The hobo season has begun. The advance guard of Wandering Willies who usually drift to Southern California with the advent of winter, has arrived. The police do not anticipate as great an influx this year as usual, owing to the general prosperity of the country, but they are prepared to take care of all comers. Special Officer Mugnemi made a round-up of beggars and boxcar lodgers Tuesday night, which netted him four prisoners. All of these pleaded guilty in the Police Court yesterday, and were dealt with by Justice Morgan.

John Martin, a sixteen-year-old boy, won the sympathy of the court by shedding tears and relating a pathetic tale. Between sobs the boy told the court that he was rendered homeless by the murder of his father, John Martin, who was shot and killed by his wife, the boy's stepmother, in the City Hall San Francisco about two years ago. Martin was a deputy county clerk whose tragic death created a great sensation in San Francisco at the time. Mrs. Martin escaped conviction for the killing and is now working in one of the San Francisco theaters. His father being dead, little John was left to shift for himself. Meeting with indifferent success at making a livelihood in the Bay City, the lad started for Southern California by the brakebeam route. When he left Mojave he had just 35 cents. He yielded up 25 cents to a brakeman for the privilege of riding to Los Angeles in a box car. With his remaining 10 cents he procured himself a meal upon arrival in this city and then started out to beg the price of a night's lodging. He had just succeeded in borrowing 10 cents when Officer Mugnemi interfered and sent him to the City Jail. Young Martin has none of the looks of the professional hobo, and as he told his story in an impressive and apparently truthful manner, Justice Morgan resolved to give him a chance to procure work, and make a man of himself. The lad was accordingly released on a floating sentence of five days.

Thomas Bradley, the second victim of Mugnemi's vigilance, was not so fortunate. He, too, just arrived in the city by freight and was begging for the price of supper and bed. The officer testified that Bradley was drunk and abusive when taken into custody. Bradley denied the intoxication charge and begged for an opportunity to float out of town, but his prayers availed him not. He was doomed to fifteen days' service in the chain gang.

Charles Jones, a bricklayer who submitted tamely when Officer Mugnemi took him in tow, told a hard-luck story and was given a thirty-days' flogging. D. F. Macelvain, a cook who alleged that he was touring by brakebeam in search of a job, was released in a Southern Pacific box car when Officer Mugnemi interrupted his slumbers. All that Macelvain asked was a chance to leave town, and he got it in the shape of a ten-days' flogging.

Edward Aldrich, a youth of 17 years, was sent to jail for five days for trying to steal a ride on the San Francisco overland. Young Aldrich boarded the blind baggage at River Station. Special Officer Yates, a Southern Pacific watchman, was riding on the same platform and ordered the young man off. Aldrich, thinking Yates was a hobo like himself, made a face at the officer and declined to vacate. Yates then pulled the bell cord, stopped the train and sent Aldrich to the Police Station. The boy alleged that he merely wished to ride to the country to get a job picking walnuts.

Peter Parenda was arraigned on the dual charge of getting drunk, and cruelty to a child. He pleaded not guilty to the cruelty charge, but set for today at 1:30 o'clock. Bail in the sum of \$10 was required on the charge of drunkenness, and \$50 cash or \$100 bond on the cruelty charge. One of his countrymen furnished bond and Parenda was released. The accused lives in a miserable hotel at No. 718 Yale street, where he has lived about 8 years, as sole companion. Neighbors say he has subjected the boy to direct cruelties, one of the punishments being to compel the lad to sleep up all night in a corner and not permitting him to sleep. It is also alleged that he came very near choking the boy to death on at least one occasion. The boy's mother is dead, and Humane Officer Craik is making an endeavor to have the little fellow taken away from his father and placed in an orphan's home.

Maxmillian Starr, a baker employed in a Broadway café, was arraigned for drunkenness and disturbing the peace of Mrs. A. J. Minter, employed as a dishwasher at the same place. He pleaded not guilty to both charges, but his attorney, Hugh J. Crawford, subsequently persuaded Mrs. Minter to withdraw the disturbance complaint. Starr then pleaded guilty to having been drunk, and was fined \$5.

A. E. Eldridge did not respond when his name was called, but Officer P. H. Murray testified that Eldridge had been drunk and abusive on the previous night, when he amused himself by kicking garbage cans into the gutter at Fourth and Main streets. The defendant was adjudged guilty as charged and his bail forfeited.

Harry Soldana pleaded not guilty to the charge of battery. He struck a Slavonian saloon-keeper on the head with a bottle. Former Police Court Judge Morrison, who appeared for the people, stated that it appeared to be an aggravated case of assault, and he requested that bail be fixed at an amount that would assure the defendant's presence for trial Saturday afternoon at 2 o'clock. Bail was placed at \$100 cash or \$200 bond, which Soldana was unable to furnish.

Marie Almon, an eccentric French woman residing on East Thirty-ninth street, was arraigned on the charge of disturbing the peace. John A. Rhombert and family. The defendant was released on her own recognizance, pending trial Saturday at 9:30 o'clock. Mrs. Almon appears to harbor the delusion that the Rhomberts have "charged her house with electricity and filled it with noxious gases so that her life is in danger."

Pears'

A touch is enough for cleanliness. That is why it lasts so.

"Winter Finds Out What Summer Lays By."

Be it spring, summer, autumn or winter, someone in the family is "under the weather" from trouble originating in impure blood or irritated condition of the system.

All these, of whatever name, can be cured by the great blood purifier, Hood's Sarsaparilla. It never disappoints. Abscesses—"I am past 54 and my good health is due to Hood's Sarsaparilla and Hood's Pills, which purified my blood and healed the ugly abscesses that troubled me," Mrs. Harriet C. Evans, Southard, N.J.

Dyspepsia—"My husband doctor'd long time for dyspepsia with only temporary relief. The first bottle of Hood's Sarsaparilla helped, and the second cured him. It cured my sick headaches," Mrs. Mary A. Clark, Wilmington, Vt.

A Painless Necessity.

Neglect of the teeth must be by some means prevented, before the extraction of teeth will become unnecessary. Being in extreme cases of tooth corruption still a necessity—dental science has applied itself to the task of simplifying the operation and removing the pain that made the horror of old time dentistry.

I have applied in my practice the best method discovered—enabling me to extract any tooth without pain, loss of senses or bad after-effects.

PROF. CARLOS TROYER.

The well known pianist and composer of "The Crown" piano which I have lately purchased for personal use. The instrument is a beautiful one, and has been long sought to obtain. The quality of tone is of rare beauty, sympathetic, mellow and full and bell like throughout the entire scale. The bass is particularly clear and magnificent. The touch is well balanced, with very sensitive repeating action—a quality every pianist delights in. Sincerely,
E. G. ROBINSON, 202 South Broadway, Agents.

Events in Society.

[Communications intended for the society columns of The Times must be signed, and must be written on only one side of the paper. Anonymous communications of society events, personal, etc., and those which, because they are written on both sides of a sheet, have to be rewritten, will receive no attention.]

Miss Edna Bicknell entertained a few friends informally yesterday evening with a musicale at the home of her parents, Judge and Mrs. Bicknell, on West Seventh street. The following named contributed to the programme: Misses Charles Modini-Wood, Geneva Johnston-Bishop, Mary Schallert, Grace Stivers; Misses J. Russell Brown, Etta Bicknell, Gladys Cummins, Elizabeth Jordan, Mary O'Donoghue, Grace Perry, Mary Doran, Mary Chapman; Messrs. H. Russell Ballard, Edward Quinlan, Clarence Stevens, Arthur Marshall Perry. Other guests present were Dr. and Mrs. Bicknell, Dr. and Mrs. H. C. Cates, Mr. and Mrs. Charles Bicknell, Dr. and Mrs. Frank Chapman, Edith Furry; Messrs. Walter J. Trask, M. H. Sherman, Louis Myers and Dr. John Herbert.

Miss Alverda Cline and J. N. Pearson were married Tuesday at high noon at the home of the bride's parents, No. 438 Anderson street. Rev. Bartlett of Bethlehem Church officiated. The wedding was a simple affair, witnessed only by relatives of the two families. The bride wore a blue traveling gown, and was attended, save by her father, who gave her away, by Miss Ruby Thompson officiating at the piano, playing Mendelssohn's "Wedding March" as the party entered the parlor, and "O Promise Me" during the ceremony. Breakfast followed, and Mr. and Mrs. Pearson left on the Santa Rosa for Santa Barbara, where they will remain a week, when they will leave for San Francisco. They will be at home after November 1 on the corner of Sixth and Olive streets. Many handsome gifts were received.

Mr. and Mrs. Arthur Lettis entertained the employees of the Broadway department store last Wednesday evening at their home, No. 611 Rampart street. The house was attractively decorated with roses, carnations, ferns and palms. The early part of the evening was devoted to a short musical programme. Miss Zoe McCoy rendered songs and mandolin numbers, and Miss Ruby Thompson played several piano solos. Mrs. Preston contributed to the pleasure of the evening with vocal solos. A cake walk, participated in by Miss McCoy and Harry Philip, afforded much amusement to the guests. A drawing contest furnished entertainment. Miss May Noble captured first prize, Miss Derges, second; Mr. Jackson, third. Mr. Philip captured the prize for the drawing contest. Refreshments were served, and the evening concluded with dancing.

The Misses Louise and Julia Ganahl of Highland Park entertained the V. V. Club last week with a three days' house party, at their beach cottage at Ocean Park, Santa Monica. Many original amusements, planned by the hostesses, made the occasion one long to be remembered by the guests. The house was beautifully decorated with ropes of smilax and red carnations, carrying out the club colors.

The Boyle Heights "Rough Riders," a wheeling organization, held their last run prior to disbandment for the winter Tuesday night. A very enjoyable time was had, some ten members being present in time for the run. Miss Ethel Mosgrove and Harold Vann, as leaders, led the riders along the route to St. James Park, where refreshments were served, thence to the Methodist University, where, as a variety, a short business meeting was held on the river. The riders went homeward via Main street and First, adjourning at the Mt. Pleasant Hotel.

"We Boys" met Tuesday evening with Mr. and Mrs. J. H. Blanchard on West Second street, and were delightfully entertained. Cephus Remberger of Battery H, Third United States Artillery, Frank Ames of the same battery, James Lawton of Battery D, California Volunteers, and Amos Strickland of the Ninth Illinois Volunteers, were special guests of honor. After a business session, Messrs. Rawson and J. H. Blanchard related some experiences in the Philippines, and Mr. Strickland told of several months' spent in Havana as a soldier. Then Mr. Remberger brought forth a basket piled full of relics and souvenirs sent to the old members of the society from Manila by Lloyd Hummer and George Oden, former members who are still in the Philippines. Many rare curiosities were also exhibited and greatly enjoyed. Refreshments were served.

Mrs. Frank Withrow entertained Saturday afternoon from 2 to 6 o'clock at her home at the Alvarado estate in honor of the fifth birthday of her daughter, Frances Elma. The children had a merry time playing out-door games, after which refreshments were served in the dining-room. The little hostess presided. Mrs. Sullivan, Mrs. J. E. Calhoun and Mrs. J. H. Withrow entertained the children. Those present were Ione Gale, Helen Cochran, Margie and Gertrude Sullivan, Lorna Reeves, Vida Moore, Edna and Mary Lulu Thomas, Ruth Mansfield, Rena Phillips, Forest Grove, Jesse Grove, Earle Gale, Avery Whiteside, Thomas Harris, Jessie Squires, Bertie Squires.

NOTES AND PERSONALS.
Mr. and Mrs. J. W. Goodhue have returned from their bridal trip to San Diego, and are located for the winter at No. 825 East Eighth street. Mrs. Goodhue will be at home Wednesday.

Walter Clyde Phillips has returned from Florida street to the California Hotel, corner of Second and Hill streets, where he will spend the winter.

Mrs. J. B. Banning entertained a few friends yesterday afternoon at her home on Westlake avenue.

Mr. and Mrs. Lowman and daughter, Miss Rose Lowman, of Santa Monica have removed to Los Angeles for the winter. Miss Lowman will attend the Cumbeck School of Orlatory.

Herbert R. Gregg left yesterday morning for Gold Mountain, San Bernardino county, for the winter. The guests of the Westlake Hotel will be entertained with a dancing party Friday evening.

Harry Love entertained twelve of his little friends Saturday afternoon at the home of his parents, Mr. and Mrs. C. E. Love, in honor of his ninth birthday. Games and luncheon filled the hours between 2 and 5 o'clock.

Mr. and Mrs. Joseph F. Chambers have removed to No. 131 East Thirtieth street. Mrs. Chambers will be at home the second and fourth Tuesdays of the month.

Mr. and Mrs. Hugh Gissell will leave for San Francisco Monday evening to remain about three weeks.

THE EDISON'S NEW PRESIDENT.

John S. Cravens of Pasadena, chosen president of the Edison Electric Company, has been elected president of the Edison Electric Company to succeed George H. Barker, who recently resigned to accept a responsible position with the General Electric Company.

Mr. Cravens has been a resident of Pasadena for several years and is largely interested in various enterprises there and in this city. Before coming to California he was one of the officers of the Liggett & Myers Tobacco Company of St. Louis, and still retains his interests in the business of that concern, which is now included in what is known as the tobacco trust. He possesses a large fortune and has devoted his life to large enterprises. For some time he has been a member of the board of directors of the Edison company. Mr. Barker still retains his position as a member of the board of directors of the company. The election of Mr. Cravens as president of the company will not result in any other changes in the list of officers.

The company is now the largest electrical concern in this part of the country. Its property in this city is only a small portion of its plant. The company recently absorbed the Southern California Power Company; it owns the Pasadena Electric Light and Power Company and the Santa Ana Gas and Electric Company, and has a branch line to Pomona. It secures its power from the Santa Ana River, power-house being near the mouth of the Santa Ana River, about twelve miles from Redlands. The feat of transmitting electrical energy from that point to this and other cities has attracted the attention of electrical experts throughout the world. It is the longest line of the kind in use in any country.

The officers of the company are soon to be removed from Third street, between Broadway and Hill, to the old Lichtenberger residence at No. 124 East Fourth street. That building is now being remodeled and will be made one of the most commodious office buildings in the city.

NOW IN SOUTH AFRICA.

Three Los Angeles Men are Now in the Transvaal.

The friends of three Los Angeles young men who are now in the Transvaal have received assurances that they are in no danger, and there is no cause for worry. The members of the party are B. and R. W. Chew, sons of Mr. H. O. Chew of No. 429 East Fifteenth street, and Hugh B. Sanborn, a former high school boy and the son of James M. Sanborn of No. 610 Spring street.

The party left Los Angeles last August and reached Cape Town early in September. H. O. Chew, a brother of two members of the party, received a letter from them dated September 12 at Johannesburg, in which they said that the burghers were preparing for war and had furnished all American citizens with passports to facilitate their leaving the country if they wished. In the letter Mr. Chew stated that the Americans were preserving a strictly neutral spirit and that the Dutch were friendly.

The Messrs. Chew have been engaged in mining near Johannesburg for several years and Mr. Sanborn is on his first trip.

PERSONAL.

Judge E. W. McGraw of San Francisco is at the Nadeau.

F. W. Armistead, a prominent fruit man of Ontario, is at the Hollenbeck.

Ernest G. Hamilton and Berry O. Sprague of Oxnard are at the Van Nuys.

E. S. Turner and W. A. Milton, cattlemen from Phoenix, are at the Hollenbeck.

W. B. Beamer of San Bernardino, who is connected with the Santa Fe, is at the Hollenbeck.

T. Forsyth, Southern Pacific commercial agent at Riverside, was in the city yesterday.

W. R. King and wife returned yesterday from a two weeks' trip to Elsinore, Hot Springs, and other places.

H. Heyman, a New York merchant, arrived in Los Angeles yesterday and is at the Westminster.

M. William Davis of San Francisco, who is well known in the lumber trade, is at the Hollenbeck.

Ceyton Armistead of Oakland has removed to Los Angeles, and will soon commence the practice of law here.

J. H. Degenhart, a well-known St. Louis business man, accompanied by Mrs. Degenhart, is at the Westminster.

Dr. E. B. Gregory, U.S.A., is in Los Angeles recuperating from the effects of service in the Philippines, and is at the Hollenbeck.

Thomas Keating, driver of Anaconda, one of the trio of fast horses at the track, arrived in Los Angeles yesterday, and is registered at the Van Nuys.

Mr. and Mrs. Clyde Jones of Denver are at the Hollenbeck on their bridal tour, which will include several points of interest in Southern California. Mr. Jones was formerly chief clerk of the famous Windsor Hotel in the dense metropolitan.

E. J. Lewis, special agent and adjuster for the Fire Association of Philadelphia, has just returned from an extended trip through the northern part of the State. During his absence Mr. Lewis was installed as Senior Grand Deacon of the Grand Lodge of Masons of California.

A dinner given yesterday evening at the California Club by Gen. M. H. Sherman in honor of the Hon. John Garber and the Hon. William Slinger. Those present besides the two guests of honor, were Judge W. F. Fitzgerald, Judge Bicknell, W. J. Trask, Col. John H. Norton and Col. Tom Lewis.

Hon. Warner Miller, the former Republican leader of New York State, accompanied by Miss Miller, spent yesterday in Los Angeles, en route from the East to San Francisco. Mr. Miller has devoted his attention to his business interests since retiring from politics, and has several million dollars invested in New York realty and corporations.

W. P. Jeffries, Master of Southern California Lodge F. and A.M., and junior member of the firm of Kitts & Jeffries, printers, is ill with typhoid fever in San Francisco. Mr. Jeffries went north October 8 to attend the Grand Lodge of the State, and was taken ill immediately afterward. His father, Serret W. T. Jeffries, received a telegram yesterday stating that the young man's condition was much improved.

NEW SPORTSMEN'S CLUB.

Opening of the Bolsa Chica Club-house and Grounds.

The new clubhouse and shooting grounds of the Bolsa Chica Gun Club were formally opened Tuesday afternoon and evening, a score or more of the members participating in the event.

The club is composed of some of the most prominent bankers, lawyers and capitalists in this part of the State. The grounds of the club are situated south of Anaheim Landing and contain about three acres of the best duck hunting grounds in the State. At great

THEY JOURNEY FROM ALL SECTIONS.

To Be Cured By the Staff of Associated Physicians and Surgeons.

In this nineteenth century science has made rapid progress in the treatment of all forms of disease. Research and study have brought to light many remedies that are invaluable to suffering humanity, but without a doubt the greatest and grandest discovery known in the annals of medical science, for the amelioration of all nervous, chronic and deep-seated diseases center upon the Homo-Alo system of combined treatment, the policy of which is now unquestioned and unrivaled.

Having unlimited faith in their special system, the Associated Physicians concluded that the quickest method of reaching a vast number of people in the shortest space of time would be by placing the fees lower than were ever before heard of in the practice of medicine.

In accordance with this decision the fee for consultation and examination by any member of this staff of physicians was placed at Fifty Cents, and sufficient medicine was included for several days' treatment. At this low figure many people doubted that they really meant what they offered to do, as it seemed almost incredible that so much could be given at so low a fee.

The results have been manifold, and were these same cures accomplished in a foreign country by some great "Savant" with an unpronounceable name, the journals all over the world would have given it prominence and heralded the news broadcast. Still the cures that have been made by this progressive system have attracted more than ordinary attention among the sick of Los Angeles and vicinity. Hundreds of people in need of medical aid have called in response to this generous offer, and the result has been that the great number of cures performed has been a means of popularizing this institution as thousands of dollars spent in advertising by any other means could not have done.

HOMO-ALO MEDICAL INSTITUTE (Incorporated for \$500,000) 245 South Spring Street. Los Angeles, Cal.

expense the club recently erected a large dam across the channel connecting the sloughs with the ocean, thus securing plenty of water for shooting purposes. The construction of this dam has raised a storm of protest from some of the owners of peat lands in the southwestern part of Orange county, and the Board of Supervisors of that county have under consideration a petition for the removal of the dam. The ranchers contend that owing to the dam the water is backed up so as to flood their property.

The members of the club have been making an investigation of the matter on their own account, and they now declare that the protest is the result of spite and that certain sportsmen who have heretofore had free access to what is now their grounds have been behind the action of the ranchers. The club members assert that the water is maintained at a lower level now than before the dam was built, because the tides have no effect upon the level. It is probable that before the matter is settled resort will be had to the courts.

The new clubhouse on the shooting grounds is one of the finest in the State. Its exterior appearance is not attractive, but the interior finish is on a scale and of a character that would do credit to almost any mansion.

The interior is finished in polished redwood. There are several immense brick fireplaces with huge and-irons on which are burned the whole sections of large trees. The house is built upon the style of the old English taverns and is commodious enough to accommodate half a hundred guests.

Among those who participated in the opening of the grounds were: J. M. Elliott, John J. Fay, W. F. B. Ford, L. L. Luce, E. R. Earl, W. R. Stanton, C. P. Moorehouse, H. L. Storey, Capt. William Banning, Gail B. Johnson, Dr. Milbank Johnson, Commodore T. W. Burnham, E. R. Hull, John V. Posey, W. G. Nevin, Jr., and others.

The shooting days on the grounds are Mondays, Tuesdays, Fridays and Saturdays, only half a day's shooting being permitted.

Butler's Arm Broken.
Charles Butler, field overseer for Turner Bros.' Oil Company, sustained a compound fracture of the right arm by being kicked by a horse yesterday morning. Butler lives at No. 1645 West First street and was on his way to work in a cart, when the vehicle was upset and the usually docile animal began kicking frantically. Turner, who was caught under the wreckage of the cart, was in range of the horse's heels and was severely injured. He received sundry bruises besides a broken arm. After extricating himself from the wreck he walked to the Receiving Hospital, where Police Surgeon Hagan attended to his injuries.

DR. M. A. McLAUGHLIN'S METHOD

Electricity, the Great Restorer, Poured Into the Human Body Like Water Into a Sponge.

The value of electricity as a cure for disease is acknowledged by the greatest scientific men and doctors. But it must be applied right, otherwise it is useless. To shock the nerves with a physician's or home battery is harmful; to apply the current for a few moments at a time is useless. The power must be applied continuously, for hours, and daily.

"The mild, continuous application of electricity is most beneficial for nervous diseases."—Prof. Beard and Rockwell, New York.

I have known this for 20 years, and have built my success upon the knowledge that the body would receive and keep the vitalizing electrical force if applied right.

I have studied the behavior of the nerves and system under the various systems of application, and have found that where slight benefit always resulted from a moderate battery current the results were truly effective when the power was infused slowly, constantly, and for several hours daily from my proved Body Belt. I found that electricity was like a fluid and the body like a sponge. As the current flowed into the nerves slowly it was all taken up and made a part of the natural electricity. If the trouble is rheumatism I direct the current to the spot afflicted; if it is any form of nervous or other weakness, I have a special method of giving the weak- ened parts the benefit of all the power; in sciatica, neuralgia, dyspepsia, indigestion, constipation, kidney or bladder trouble, paralysis, etc., special treatment is adapted to each case.

In this way the life-giving power of electricity, with all its well-known curative force, is brought under my control. Cases which have refused to yield to the best efforts of the best doctors, using both drugs and electricity, have yielded to my methods and been permanently cured. It infuses its gentle warmth into the nerves all night, and when you awake in the morning your body is refreshed with the accumulation of energy it has received. The blood is quickened, the nerves are active with new life, and disease, if there was any, has received a death blow. It cures quickly. Call and see it and let me explain its power, or send for free book telling of it. Address

Their Remarkable Cures the Talk of the Country for Miles Around.

People are flocking from all sections to place themselves under the professional care of the Associated physicians at the Homo-Alo Medical Institute, which is giving to them the largest Medical Practice in Southern California.

The fee of Fifty Cents per treatment, including sufficient medicines to last for several days, does not cover the cost of the pure drugs used, to say nothing of the time and valuable advice of a staff of the most skilled physicians in the West. This means of advertising is an expensive one, as it necessitates the same amount of time and attention as if the charges were higher. Everyone is now given fair notice that these prices will not be continued but two weeks more.

In the meantime everyone calling will have the advantage of these terms, namely—all diseases treated, best physicians' advice, including medicines for two to five days, Fifty Cents per treatment. Catarrh and all relative diseases treated at \$5 per month. All other diseases treated at equally reasonable rates. The patient has the choice of paying Fifty Cents each visit or equally low rates per month regardless of the number of visits necessary or medicines required.

Remember these prices will be increased after two weeks and all contemplating taking treatment will do well to begin at once.

Remember, the low fee charged at the present time is not a permanent feature of the Institute and will be increased after two weeks. Those contemplating taking treatment will do well to begin at once. The same careful attention will be paid as regards medical advice and medicines as when later the regular fees will be charged.

Furs remodeled. D. Bonoff, 247 S. Bldg. Dr. Michener, No. 307 S. Broadway.

Walter Thomas and Sadie May Schou were married by Justice C. O. Morgan at his residence, Tuesday evening.

The Los Angeles Sharpshooters meet at 7:30 o'clock tonight at Hoegee's, to make arrangements for regular monthly competitions.

The pupils of the Twenty-eighth-street school held a patriotic meeting yesterday, and after appropriate exercises a large national flag was raised.

There are undelivered telegrams at the Western Union telegraph office. Mrs. R. L. Weston, Miss May Stratton, W. Lindsey, August T. Dorn, Alfred Hope Dooy, Mrs. Grace Feber.

Tom Sullivan was taken to the Receiving Hospital last night, suffering from severe injuries about the head and face. He had fallen while intoxicated, upon the corner of the corner of First and Spring streets.

The Los Angeles Sunday-school Association is planning for a grand rally at Hazard's, Friday, Thanksgiving evening, and one of the features will be a chorus of 1500 voices, recruited from the Sunday-schools of the county. The musical director will be Prof. A. Miller.

Through the bursting of a tire, Clifford Chapin of No. 1205 Fedora street fell from his bicycle while crossing the street tracks in Spring street, yesterday morning, immediately in front of a north-bound car. He was struck by the car and carried by the blow, but received no serious injury. After being revived in a drug store he was conveyed to his home by his brother.

The mysterious disappearance of Joe Grissinger, the driver of a milk wagon for R. C. O'Bryan, is a mystery no longer. A friend of Grissinger in this city received a letter from him yesterday, stating that he was alive and well in Arizona. He gave as his reason for leaving so unceremoniously the fact that he had trouble with a young woman. He abandoned his team to jump an early morning freight train for Arizona.

Marriage Licenses.
The following marriage licenses were issued yesterday from the office of the County Clerk:

Mark Edwin Cary, aged 30, a native of Nevada and a resident of Johannesburg, South Africa, and Effie Lunetta Standlee, aged 17, a native of California and a resident of Hivernia. The mother, Mrs. Rhoda Standlee, gives consent to her daughter's marriage.

Charles Jacoby, aged 33, a native of Wisconsin, and Stella Kinman, aged 20, a native of California; both residents of Los Angeles.

Charles W. Guthrie, aged 23, a native of West Virginia, and Amanda Meyer, aged 23, a native of Pennsylvania; both residents of Los Angeles.

William M. Fox, aged 24, a native of Illinois, and Ida M. Prince, aged 24, a native of Ohio; both residents of Toluca.

James E. Seeley, aged 24, a native of Illinois and a resident of Los Angeles, and Ada P. Raymond, aged 19, a native of Nebraska, and resident of Covina.

Henry M. Guthrie, aged 29, a native of West Virginia and a resident of Los Angeles, and Clara M. Megie, aged 23, a native of Kansas and a resident of Tropico.

AGAINST STATE PLAN.

CHAMBER OF COMMERCE DECLARES FOR FEDERAL IRRIGATION.

Three Delegates to Be Appointed to the San Francisco Convention and Instructed to Oppose the State Bond Scheme.

The Chamber of Commerce has declared in no uncertain terms for the plan of national irrigation, and against the proposed scheme for the issuance of State bonds for irrigation purposes. At a regular meeting of the board of directors of the chamber yesterday afternoon, resolutions were unanimously adopted providing for the appointment of three delegates to the irrigation convention to be held in San Francisco November 14, and instructing those delegates "to make every possible effort to secure the abandonment of the State plan." The directors who voted for these resolutions are President J. S. Slauson and Messrs. Clark, Forman, Hawgood, Klokke, McGarvin, McKee, McGarry, Newmark, Pascoe, Rule, Story, Stewart and Sessions.

A communication was read from T. C. Friedlander, secretary of the California State Association for the Storage of Flood Waters, incising a call in which the chamber was asked to appoint a committee of three to attend a convention to be held in San Francisco November 14, to take up the matter of the construction of reservoirs and works for the storage of flood waters within the State of California. In compliance with this request, the following resolution was offered and unanimously adopted, and the president was requested to appoint a committee of three and report at the next meeting:

"Whereas, the Chamber of Commerce of Los Angeles, Cal., has been requested to send three delegates to a convention, to be held at San Francisco, Cal., on November 14, 1899, at the call of the California State Association for the Storage of Flood Waters, to take action on a proposed plan of irrigation, and the president has accepted of the construction of reservoirs and works for the storage and distribution of water for the purpose of irrigation, and whereas, it is the sense of this chamber that the proposed plan, as outlined in the press and explained in a meeting held for that purpose in this city on October 7, is not suited to the advancement of the welfare of the State of California, and whereas, all the benefits of the State of California which the proposed plan is designed to accomplish are included and more effectually provided for in the plan and purpose of the National Irrigation Association which already has the fullest endorsement of the president, be it resolved, that in sending delegates to the proposed convention they be, and are hereby, instructed to make every proper effort to secure the abandonment of the State plan referred to, and also to induce the said convention to take such action as will best harmonize with the purpose and work of the National Irrigation Association."

C. D. Willard, who was a delegate from the chamber to the conference of trustees held in Chicago September 13, gave an account of the proceedings of the conference. In this report it was made manifest that the Los Angeles Chamber of Commerce was credited with the only delegate from this State. The secretary was instructed to ascertain the expense and conditions under which the weather reports could be published in a leading daily paper in Minneapolis, Chicago, New York and Boston for four months, beginning November 1. This information to be furnished at the next meeting of the board. Previous to adjournment, Horace M. Dobbins, president of the California cycle way, was elected to membership.

STORMS IN ITALY.
Widespread Damage and Many Lives Lost in Southern Districts.

(ASSOCIATED PRESS DAY REPORT.)
ROME, Oct. 18.—[By Atlantic Cable.] Serious storms, accompanied by floods, prevail in the southern districts of Italy, working widespread damage. At San Giorgio a bridge and twenty houses have been swept away and it is believed that there has been considerable loss of life there. At Monte Mesota a church was struck by lightning during mass, three persons being killed and forty others more or less injured.

Horsefield's Troubles Ended.
The complaint charging Harry Horsefield, an East Side barber, with criminal assault upon little Mammie Best, was dismissed yesterday by Justice Morgan, on motion of Deputy District Attorney Charles W. Horsefield, who was acquitted recently, upon second trial, on a similar charge, alleging that Knez Clark, a ten-year-old girl, was the victim of his designs. As the circumstances in regard to the little Best girl were practically the same, it was not thought a conviction was possible, so Mr. Chambers, the prosecuting attorney, consented to dismissal of the case.

DEATH RECORD.
GAVITT—In this city, Tuesday, October 17, Alice I. Gavitt.

FUNERAL—In this city, Tuesday, October 17, at 1:30 a.m., from residence of her sister, Mrs. Mary A. Thompson, No. 602 North Griffin avenue. (San Jose papers please copy.)

ELLINGTON DRUG CO., N. W. Cor. Fourth and Spring Sts.

You are Thinking

Of a tailor made suit probably, most women are just now. We have a magnificent stock and would like to have every woman see it before she purchases her fall suit.

This is our first season in suits, so of course there is a suit in the house that is more than a month old. It is a pleasure for us to show such a stock, and we are sure it would be a pleasure for you to see it whether you wish to buy or not.

And then, because it is our first season with suits, we have a trade to build up in this line; so we are selling them with just a small margin of profit—you get the benefit of the low prices. We have a suit on sell for \$18.50 that is better than any suit ever sold in the city for the price. From that on up as high as you care to pay. Some beautiful imported novelties which arrived last night will be first shown today.

The Unique Women's Outfitters, 245 S. Broadway.

Shoe Sum..

Material Brains Experience Honesty

Omit any of these items and the shoes are not worth \$5.00. Be sure one or more points are skipped if you pay less. Our \$5.00 shoe for men and women is an honest \$5.00 worth of shoe style and wear.

Only Expert Shoemakers Build our Shoes

Get Your Materials at the Marvel

And have Your Hat Made to Suit You.

This is our mission—to sell you the materials for a nobby hat for considerable less money than you could hope to buy an inferior "ready-made" hat for any place on earth.

The advantages of this way of millinery are obvious.

And there is no lack of material here from which to select—no single millinery article but what is ready waiting and trimmers to trim in any style you want.

SPECIAL SALE

Of beautiful ornaments and buckles in cut steel, Rhine stone, glass, etc. They are new shapes and designs for Fall and is the best assortment we have ever seen for the price. 25c

Marvel CUT-RATE Millinery, 241-243 S. Broadway.

Extraordinary Dress Fabric Chances at = = = 50c

This store was never more of a store for the whole people than it is today. We chronicle a remarkable sale of dress stuffs for the next few days beginning now—the minute you read this announcement. We bought heavily of fabrics to sell at this price. We bought many kinds that usually sell for more, but by going direct to the producers, the mills, we paid less than other stores do who buy in small quantities of jobbers and commission merchants. Our savings are your savings—our bargains your bargains. Read the list of extraordinary values at 50c a yard. After they're gone you'll pay higher prices, because all woolen stuffs have advanced.

38-inch all mohair storm serge, two shades of navy and black, 50c.

42-inch all wool chevot serge in red, blue, green, brown and black, 50c.

40-inch black prerola crepons in overshot and scroll patterns, 50c.

38-inch all wool homespun suitings, steel gray, castor, Oxford and brown mixtures at 50c.

38-inch reversible tailor serge in broken checks and plaids of two-tone effects in brown, green, blue, gray, etc., 50c.

38-inch all wool, reversible covert cloth in fancy checks, two-toned effects in blue, tan, green, red, blue, gray, purple, etc., 50c.

36-inch all wool Venetian cloth in tan, castor, green, red, blue and black, 50c.

38-inch reversible granite plaids in red, purple, fuchsia, blue and brown plaid in back, 50c.

Worsted Plaids

One case of double fold, worsted plaid dress goods in this season's patterns; suitable for children's school dresses and women's wrappers; worth 10c a yard; on sale today at 5c

I Grow Hair On Bald Heads

AT 32. I STOP THE HAIR from falling and splitting at the ends. I GROW ladies' and children's hair rapid in length, and tone up the roots so the hair grows soft, glossy and beautiful.

RE-STORE PREMATURE GRAYNESS to its original color and vitality. I PREVENT YOUNG MEN from going bald and young ladies from wearing false hair. I FURNISH out-of-town people home treatment. Enclose 4 cents in stamps for question blank.

I TAKE NO DOUBTFUL CASES. I WILL REFUSE \$500 for a bald head I cannot grow hair on, providing there is any fine fuzz or hair left to provide the roots are not dead.

Prof. George A. Garlow

The world's most celebrated and only, successful specialist on hair growing and scalp diseases. Rooms 16, 17, 307 S. Broadway. Consultation free, 9 to 12 a.m.; 1 to 5 and 8 to 9 p.m.

Our Glasses

Are fitted scientifically and are absolutely correct. Careful attention given to fitting the frames to the face.

O. L. WUERKER, L. A. Theater Bldg., 229 S. Spring St.

Thousands of Wrappers Fabrics

Yes thousands of pieces and styles of warm, well-fleeced wrapper stuffs. We have never known such good values, neither have you. The styles are pretty, too. Even if goods are cheap we don't take them unless the patterns are desirable.

Outing flannels are here thousands strong—solid colors, stripes, checks and plaid in light and dark effects. Two especially good values are selling at 8 1/2c

Herietta flannels, fleeced wrapper fleece with stylish floral sprays, stripes and plaids in navy, black, brown, green, gray and red grounds; at 8 1/2c

Heavy wrapper flannels with fleeced backs—12 inches wide—dark washable grounds with figures, stripes, polka dots and Persian patterns; splendid values at 10c

Warm cotton eiderdown flannels in patterns especially adapted for wrappers and dressing saques; large figures, wide floral stripes and bright plaids at 12c

Fluffy and warm German eiderdown flannels, large plaids, large leaf patterns and medium stripes on dark and medium grounds; best ever sold at 15c

Double faced wrapper flannels a yard wide, good imitation of wool, handsome stripes in navy, black, brown, blue, red, brown, tan, lavender, green and black grounds; priced at 20c

Mercerized wrapper cloth one yard wide, changeable checks and stripes of blue, brown, red, tan, green and heliotrope 20c

Black spangled net all-overs, 25c

But bright changeable broken checks of blue, red, green, tan and brown; selling at 25c

Special Flannelettes

Dark figured flannelettes of good quality and width; cashmere finished; a very popular stuff for wrappers, etc.; worth 10c a yard; on sale today only at 5c

Good Shoes

Take all the points of shoe excellence that ever appealed to you and combine them in one shoe and the result is "Ideal foot-covering." Such composite goodness is found in the Elk and the Ebell. Every good point that appeals to manish swiftness or womanly taste is embodied in these two shoes. Every leather, every size, every width and every pair

Girls' box calf, lace, spring heel shoe, made with extension soles; sizes 11 to 2; well made and very serviceable; selling at \$3.50

Girls' high school shoes, made of finest box calf in lace style with low common sense heels and extension soles; made on the newest shape last; sizes 2 1/2 to 6; style fit and wear combined for \$2.50
